

OSTEOPATH FACES ILLICIT OPERATION CHARGE TODAY

A Decoto osteopath, Dr. Norton Fuller Robinson, will appear before Niles Justice of the Peace E. A. Quaresma today for arraignment on a charge involving an illegal operation on a 33-year-old Alameda mother of two.

Robinson is free on \$1,000 bail, set Monday by Quaresma. He surrendered Monday at the court house jail in Oakland.

AT DECOTO OFFICE

Sheriff's Detective Joseph J. Sheehan reported that Robinson had admitted performing the abortion February 5 at his office at 919 Tenth Street, Decoto, because he "couldn't withstand a woman's tears."

The woman, separated from her husband, is now under treatment at Highland Alameda County Hospital, where she was taken when complications followed the alleged illegal operation. She is an employee at the Alameda Naval Supply Depot and has custody of her two small children.

Detective Sheehan said Robinson had admitted to Hayward Police Chief George Forth, Deputy District Attorney George Nye and other representatives of the district attorney's office that he had performed the operation after once refusing the woman.

MOVED BY STORY

He said he was moved by the woman's story, that she was having domestic trouble and would lose custody of the children if she fathered a child by another man. He added he had collected \$36 for the work, including three house visits, two office calls and the actual operation.

"I told her to get in touch with me if anything happened," the doctor told Detective Sheehan. "That's what I get for taking a woman's word."

Conviction of the charge bears a maximum jail sentence of from two to five years.

Robinson resides at 825 Kings Court, Hayward.

THREE EVENTS TOP F.F.A. WEEK HERE

Centerville Chapter, F.F.A., observed National Future Farmer Week with three major events, according to group Adviser Jed Ox-borrow.

Monday the chapter presented an assembly program at the high school, and all week window displays were set up in each town in the township.

Monday evening the local group was host to Half Moon Bay, Livermore, Pleasanton and Hayward Chapters at a Sectional FFA meeting held at the high school.

Frank Hermosa is president of the group.

POULTRY MEETING

"Brooding the Chicks" will be the topic to be discussed Tuesday, March 1, at a meeting called by the Poultry Section of the Livermore-Pleasanton Farm Center. The meeting will be held at the Library Club rooms in Livermore and will start promptly at 8 p.m.

YOU CAN STILL BE A MEMBER

A meeting of the Community Concerts campaign committee, delayed until tonight (Friday) has made it possible for those who didn't procure memberships for the next season's concerts to do so this week.

This extension of time for the procrastinators is good news for many who failed to get their memberships last week. Those seeking memberships should phone Mrs. Edna Tyson by tonight.

The committee, meeting tonight, will have further information about next season's artists in next week's Register.

The third, and final, concert of the current season is that to be given by Jane Hobson at the high school auditorium in Centerville on the night of March 16.

CURRENT AFFAIRS CLASS TO START

"The Powers at Large" will be the subject under discussion next Tuesday night, as a new current affairs course opens at Washington Evening School.

The class, which will meet five times, is under direction of Jud Taylor, and will include class discussions, lectures, and moving pictures. Meetings will be held each Tuesday night in March, starting at 7:30 in the visual education room at the high school.

Tuesday's discussion will center on the physical powers, petroleum, atomic power, and jet propulsion, as well as economic systems, communism, socialism, and capitalism. Succeeding meetings will dwell on "The Seeds of Destiny," "Asia Awakens," and "And What of Europe."

LIONS SPEAKING CONTEST NEARS

Washington Union High School students today are readying speeches on "The United Nations—Safeguard of Human Liberty," in preparation for the 12th annual Lions Club Student Speakers Contest.

Local competition will get under way next week, when eliminations are held on campus to narrow the field down to three contestants, who will appear before the Centerville Lions Club March 8.

Winner of local competition will advance to zone eliminations, between high school students from Hayward, Castro Valley, San Lorenzo, Centerville and Pleasanton. Clyde Voorhees heads the student speakers committee, assisted by Gene Manning, Lowell Creighton and Art Cotton.

Winner of the contest, sponsored by the Lions Clubs of California and Nevada, will receive an \$800 cash prize. The money may be used at a college of the student's own choosing.

Last year Phil Enciso of Washington High won both local and zone contests before being eliminated in regional competition.

IRVINGTON SCOUTS SET CAMPING TRIP

Irvington Boy Scout Troop members will go on a camping and exploration trip this week-end, near Pigeon Point.

Scouts will leave Saturday morning, and will return Sunday afternoon.

They will be accompanied by Gus Robertson and Gene Robinson. Transportation for the group has been provided by William Dobyns. Trip time will largely be spent on exploration and perfection of scout skills.

CYFA TO SPONSOR SKATING PARTY

Washington Township Chapter, California Young Farmers Association, will sponsor a skating party next Tuesday at the Irvington Skating Rink.

Sal Galvan heads the committee in charge of the affair, assisted by James Baker and Louie Marchy.

The chapter will also sponsor a second event, a wedding school, to be held at the high school shop. The wedding meeting will be held Monday evening, March 7.

VODVIL PROGRAM GOES ON STAGE AGAIN TONIGHT

"San Francisco," Washington Union High School's 1949 Vodvil, opened yesterday and last night in two performances, and will go on stage again tonight in the High School auditorium.

The production, which centers on an imaginary trip through San Francisco on the cable car "Funland Special," features visits to the Russian Settlement, Latin Quarter, Chinatown, Swiss Land, and Golden Gate Park, as well as a voyage to Hawaii.

Divided into three acts, the production is designed to run approximately two hours.

A total of 31 dance routines, comedy acts, vocal and instrumental numbers and solos will make up the program.

Bob de la Torre will play the feature role of cable car conductor during the evening.

In addition to students featured in numbers on stage, Jack Gaunt's school dance band and the Girls' glee club will provide accompaniment on musical numbers.

Director of the Vodvil is Mrs. Martha Hartsog, and her assistants are Miss Gertrude Mozzetti, Miss Dorothy Czerny, Miss Audrey Carmody, Mr. and Mrs. Dwight Thornburg, and William Mette.

Rehearsals, preparation of the skits and writing the script of the production got under way immediately after presentation of the school Christmas pageant, and concentrated efforts have been made during the past few weeks to round the Vodvil into polished shape.

Walls of the auditorium are decorated with comic advertisements, reminiscent of auditoriums of years gone by.

ARKANSAS BURIAL FOR NILES BABY

The body of 9-month-old Darri Lee Gellerman, son of Mr. and Mrs. LeRoy Gellerman of Morrison Canyon Road, Niles, is being flown to Arkansas today, for burial services.

The infant passed away February 22 at an Oakland hospital.

Burial will be at Mansfield, Arkansas. Arrangements have been made through the Berge Mortuary Co., at Niles.

NEWARK PTA PLANS TWO SALE EVENTS

Further plans for coming rummage sale and food sale events will be laid by the Newark P.T.A. next Thursday at a regular meeting to be held at the school.

The rummage sale has been set for March 10-11. The food sale will be held April 16.

Mrs. William Dutra is president of the club.

RED CROSS DRIVE HEAD APPOINTED

Peter D. Juhl, manager of the Niles P. G. & E. office, this week was appointed chairman of the 1949 Washington Township Red Cross appeal.

His appointment was announced by LeRoy A. Broun of Centerville, chairman of the Township Red Cross branch.

The drive will get under way some time next week, as throughout the nation.

STEPS STARTED TO ZONE IRVINGTON

Steps to zone the Irvington area were given the go-ahead Wednesday night, at a mass meeting of area residents held in the Irvington Elementary School auditorium.

The course was decided upon by a motion carried unanimously by the assembled group.

The meeting, called by County Planning Commissioner R. J. Wright, was conducted by Ronald Campbell, county planning consultant, who explained features of zoning and led discussions.

Future work will be made by Campbell, assisted by an Irvington Citizens' Zoning Advisory Committee, consisting of A. E. Alameda, Carl Christensen, Allan R. Hirsch, Jack Holland, Thomas Berge, L. S. Williams, R. Fleming, R. A. Griffin, and W. E. Trenouth.

Future meetings on Irvington zoning will be set at a later date.

VETS TO FILE FOR TAX EXEMPTIONS

Washington Township veterans will be able to claim veterans' exemption from county taxation on property to the amount of \$1,000 from 7 to 9 p.m. March 14 through March 18.

Exemptions may be claimed at the Veterans Memorial Building at Niles, where M. C. Dassel, deputy assessor, will be on duty to assist the G. I.'s.

Application must be filed before the last Monday in May, or exemption is waived. Vets must present evidence of active service, and must file a complete statement of the value, as of the first Monday in March, of all real and personal property in California or elsewhere owned or assessed to the veteran or his wife.

Exemptions will not apply to any person owning more than \$5,000 of property.

S. P. R. S. I. TO GIVE DANCE IN NEAR FUTURE

A Shrove social dance will be held on Tuesday night, March 1, at the I.D.E.S. Hall in Mission San Jose. This is sponsored by the Social Activity Club of Councils 3, 31, 84 and 105, headed by Beatrice Enos of Irvington.

All members and their families are asked to attend.

WORK UNDER WAY ON NEW SCHOOL WING AT NEWARK

Construction began last Monday on the first unit of a new school plant at the Newark Elementary School.

Contract for the project, calling for erection of a new school wing including eight classrooms, kindergarten, nurses quarters, administrative offices and storage space, was let by the school board last Friday night, at a special meeting. COST \$144,879.

Work will be done by the W. H. May Construction Company of Belmont, lowest of 16 bidders on the project. Cost will be \$144,879.

Other bids ranged to a high of \$180,044, submitted by Conway and Gulligan, contractors. Bidders included E. A. Hathaway, Cattie and Stevenson, Mark Bristol, Pacific Coast Construction, Rahmlan Co., H. Jensen Co., Harris F. Jeldman, W. V. Bernard, W. F. Lynn Co., Wisneropp Co., Peterson Co., Indenco Co., Wilson Co., and Pacific Construction.

COMPLETE IN 190 DAYS

According to terms of the contract, the unit must be completed within 190 days. May at present is finishing work on two schools, one at Sunnyvale and another at Milbrae.

The wing will be situated at a diagonal to the present plant, at 680 Cherry Road near Thornton Avenue.

RADIANT HEAT

Radiant heating and north lighting features will be incorporated in the new building, which is designed for occupancy next fall.

It will relieve overcrowded conditions at the present plant, erected in 1915. At present the school auditorium is divided into two classrooms in order to provide teaching space. School enrollment now stands at approximately 339.

FIRST UNIT

The new building will be the first unit in an entire new plant, to be erected as funds become available. The new campus will include a library, auditorium, cafeteria, and more classrooms.

Continued school enrollment increase is foreseen by District Superintendent Jack MacGregor, as 73 first grade pupils are now attending classes.

Bids for the project originally were opened by the board several weeks ago, but loss of records in transit from the district attorney's office to Newark forced postponement of award of the contract.

WELFARE CLUB GETS A GOOD RESPONSE

Meeting Monday at the home of Mrs. Blake Hill, the Child Welfare Club of Washington Township chalked up something of a record in the matter of garments made and procured. In addition to sewing pajamas for needy children of the township, the members procured new clothes for 25 children and furnished shoes for several others.

Mrs. Thomas Power, president, stated that the overwhelming response to pleas for blankets and clothing for the needy in this area, has been most gratifying. "The public has been tremendously kind in answering our appeals," she said.

SCOUT CRUSADE IS NOW UNDER WAY

For Scouts and Seniors throughout the area the Crusade of Boy Scouts of America is underway in earnest this week as the boys and young men joined in the biggest peace time community service project ever undertaken in this area.

Scouts are visiting homes to enlist the families of the area in their Crusade to Strengthen the "Arm of Liberty." Adults, or Senior Citizens are being asked to vote at the next election; write occasionally to their congressmen; and to reread the Bill of Rights in their homes.

Visiting Scouts give to each home a copy of the Bill of Rights and the addresses of local congressmen.

TICKETS BOUGHT

The Decoto Chamber of Commerce has purchased four student and two adult tickets to the Community Concert Association, President Kenneth Garcia announced this week.

3 Main Water Plans Explained by Board

Today water conservation is on the tip of everyone's tongue—for it is the most critical problem faced in this area, and must be solved if the township is to continue to prosper as an agricultural and industrial center. In this light The Register is glad to publish this statement made by W. D. Patterson, president of the Alameda County Water District board of directors and the most outstanding authority on water problems in the area, and addressed to United States Senator Sheridan Downey.—The Editor.

COMMUNITY CENTER CONTRACT AWARD EXPECTED TODAY

Last minute details are all that stand in the way of signing a contract to complete a "Community Center" at the Irvington Grammar School, according to District Superintendent Gus C. Robertson.

Providing details are completed, the project will be awarded the Indenco Construction Company of Oakland, at a bid price of \$29,993.

The Indenco bid was lowest of three submitted on the project. Others were received from R. A. Griffin, \$30,964; and Hugh A. Garner, Hayward, \$31,825. Proposals originally were received by the board February 8.

Stuccoing and interior finishing work is all that remains to be done before the structure is ready for use. Started more than a year ago, it is a frame building constructed of war surplus lumber and is situated in back of the present school.

The building will include a music room for glee club and orchestra use, speech room, rhythmic physical education quarters, showers, boy scout den, ladies lounge, and main meeting room.

Designed for night use by various Irvington organizations in addition to daytime school use, the center will be one story, 38 feet wide by 120 feet deep.

Meeting dates for organizational use will be allocated by a Community Center committee, to be selected by the school board. The committee will operate under the board and will serve as a clearing house for center activities.

The Indenco Company is continuing work on a second school project, finishing of a new cafeteria building. Cost of the cafeteria project is \$38,880.

The cafeteria, slated for completion in late March, will seat 320 persons and will be located adjacent to the present school. It will include a storage room, walk-in refrigerator, kitchen, dishwashing room, small office, and serving and seating space.

Board trustees are Dr. E. M. Grimmer, Alfred Peixoto and John R. Gomes. Gus C. Robertson is district superintendent.

MAN JAILED ON BATTERY COUNT

Jose Herrera, Decoto, today is in the county jail serving a total of 35 days on counts of battery, disturbing the peace, and drunk driving.

Herrera was sentenced last Friday by Judge Allen G. Norris of Centerville, after testimony was heard on the battery and disturbing the peace charges. Complaint was made by Manuela Campos, 310 Sixth Street, Decoto. Herrera received 15 days on each count.

Then Herrera came before his honor again, this time for drunk driving, and five more days were added to the sentence.

STUDENTS GO ON FIELD EXCURSION

The seventh and eighth grade classes of the Centerville Elementary School went on a field excursion to the College of Dentistry, University of California, in San Francisco, Monday morning. The students had their teeth cleaned, saw a dental film, heard a lecture on the care of the teeth, learned the proper technique of toothbrushing, and were taken on a tour of the campus.

Arrangements were made by Mrs. March Fong, supervisor of Dental Health, Alameda County Schools, and the students were accompanied by Miss Margaret Wiles, seventh grade teacher, and Principal Thomas Maloney.

Senator Downey, I want to take this opportunity to express the gratitude of our Board of Directors for your consideration and the interest you have taken in the problems of water conservation of Alameda County Water District.

I should like, also, to convey our thanks to the people of Santa Clara County for their co-operation and sympathy therein, and to the officials of the San Francisco Water Department for their assistance in many ways, in helping us to meet those problems.

The Alameda County Water District includes within its boundaries in Southern Alameda County about 50,000 acres of land, this being also a part of the northerly end of the Santa Clara Valley. This District includes the towns of Alvarado, Decoto, Newark, Centerville, Niles, Irvington and Mission San Jose.

It is mainly an agricultural area of highly developed, intensively cultivated farms producing specialty crops, such as sugar beets, tomatoes, lettuce, cauliflower, and most other truck products. Of equal importance are extensive orchards of apricots, cherries, prunes, etc. There is also an important industrial development in this area—Pacific States Steel Corporation, Leslie and Morton Salt Companies, Westvaco Chemical Company, Jas. Graham Mfg. Co., and many smaller plants. Many of these require large quantities of fresh water but they can not pay the rates required for domestic service supply. They must get their supply from wells.

The above activities have developed because of the presence of extensive underground gravels, at one time saturated with fresh water, percolating from Alameda Creek, which action maintained in these gravels a water-table standing well above sea-level and very economical to pump. Now, due to diversions of large quantities of this water by San Francisco and other communities, and the greatly increased use for irrigation, the level of this water-table has been reduced to more than 50 feet below sea-level, thus greatly increasing pumping costs. As the use of water is increasing steadily, the result must finally be the exhausting of the water reserves in this underground basin and the reversion of the land to the production of hay, grain, and pasture by "dry farming" methods, as in the pioneer days, but without the benefit of the sub-irrigation enjoyed then.

This result is serious enough to consider, but we are now confronted with a more immediate and tragic situation. The continuous

WATER EXPLAINED

(Continued from page 1)

flow, prior to about 1920, of fresh water from these gravels into San Francisco Bay has been reversed and there is now a back-flow of salt water from the Bay through subterranean channels into our gravels. This is replacing and contaminating our water supply, so that well after well bordering the salt marshes has had to be abandoned, for many crops have been damaged or destroyed by the attempt to irrigate them from these wells. The effect of this salt water intrusion is beginning to be felt as far as Centerville, over four miles from the bay shore. Deeper gravels have had to be tapped, and increased and expensive power installations made to get fresher water, but as all of our gravel strata are inter-connected, this is merely a stop-gap to keep us going while hoping for relief of some kind before actual disaster is at hand. In the meantime, the pace of this infiltration is increasing and relief must be had in the near future.

The present annual draft from our gravel basin is estimated at about 75,000 acre feet per year. We believe that this amount will now be needed from outside sources to supplement the natural absorption into our gravels from winter run-off. As prior water-rights are exercised and more of the water-shed is cut off thereby, the natural supply for percolation is reduced to practically nothing in dry years. So that for both the checking of salt-water infiltration and for restoring and maintaining the water table in our gravels at sea-level for our rapidly increasing needs, we must get relief from supplies that are now going to waste.

The local sources of replenishment are exhausted,—our relief must come from outside. We have access to Hetch-Hetchy supply, but it is too costly for agricultural and for many industrial uses. Our main attraction for industries has been the large supply of water available for the mere cost of pumping from a few feet below the surface of the ground. Without this advantage we cannot compete with those regions that can afford abundant and cheap water. As for agricultural use, this region of highly productive specialty crops faces disaster if, from contamination by salt water, it loses this natural resource. Since this District has no other practical means of developing a local reserve, we have the problem of finding an outside supply, or at least outside aid in conserving the local food water supply.

And when I speak of an "outside supply," Senator Downey, I mean outside our own Water District boundaries. As you know, our

District does not cover the source of supply,—that is the reservoir and dam sites in the Livermore area.

There seem to be only three sources of relief. The American River or "Folsom Project," the "Reber Plan," and the waste flood waters of Alameda Creek. The former has great promise as a conservation measure and might solve our problem eventually. We wonder, however, if it can be expected in time to save the bay area farming industry from irreparable damage. If the gravel basin from which we pump becomes too salty for use, how can it be refilled with usable water? At best, it would be a long, expensive process, with ruin facing thousands of property owners in the meantime. We do not, in any way, oppose the Folsom Project. On the contrary, we strongly advocate it, but we fear that it may come too late. It is presumptuous, however, for us to attempt here even a discussion of this great meritorious project.

This brings us to the Reber Plan. It appears to us as an ideal solution of our difficulties. With it in operation, and the South Bay filled with fresh water, the inflow of salt water would cease. This District would immediately dredge canals back to where pits would expose the gravels to percolation, while near the bay shore, large pumping operations would be undertaken to remove the salt from the upper gravels. This would restore our underground lake to sea-level and solve our water supply problem forever, giving us unlimited water for the mere cost of pumping it the few feet to ground levels. We are told that the actual construction time for the essentials of the Reber Plan would be about two years and with negligible delays due to shortage of steel and other materials as required by a bridge. In the meantime, this District is carrying on tests trying to locate the source of inflow of sea-water with the object of plugging or choking off the channels so as to check or control, somewhat, the rate of infiltration while trying to work out a solution.

Our Board of Directors, by unanimous agreement, urges a complete and impartial study of the Reber Plan. We think that it will mean not only our own economical survival, but also that of similar rural areas in the eight counties of the Bay Region, whose backing of this Plan is indicated by our studies. However, we recognize that this result can not be asked at the expense of the rest of the community, the State, or the Nation. We are convinced from our studies, nevertheless, that all these bodies will benefit greatly and that most of those individuals who fancy they will suffer from any change in the "status quo," are going to find themselves forced into situations highly profitable to themselves.

Consideration from the standpoint of "enlightened self interest" should show that in advocating this project, we are not asking favors, but contributing them, to the general public welfare. There can hardly be any serious question as to the benefits to the bay counties of fresh water than salt-water lakes. The position of those south of Santa Clara County is not so favorable, it is true, but their need for water to supplement their natural supply can be met by conduits and pumping from the south end of the bay. This might be costly, but once installed, the problem would be solved forever.

It is assumed that members present know the main features of the Reber Plan at least, and its proposal to solve in one compre-

hensive project and for generations to come, the problems both of transportation and of water supply for the entire San Francisco Bay region. It is sufficient to say here that its value in highway and bridge transportation alone, appears to be many times that of the proposed two structures,—a high bridge and a causeway. But in addition to this, the project will keep upper and lower San Francisco Bay filled with fresh water to high-tide level and free for the use of all the surrounding territory as far as it may be transported. We are convinced that the cost would be less than that of the two structures above-mentioned and unlike them would be toll-free and self-liquidating.

There have been many objections raised by opponents of the project and they have labelled it "fantastic," until the word has become a sort of trade-mark or "bugaboo" of the opposition. Many of these are the same ones who once said the same thing concerning the building of the present "Bay Bridge."

By the saving and use of this impounded water, which otherwise flows uselessly to waste right by our front doors, we release an equivalent amount for use in all other parts of the State. The average amount thus wasted annually through the Golden Gate is 30 million acre feet, or about what is now used for irrigation in the entire State of California.

The benefit to the Nation in time of war is obvious. Both bridges, causeways, and aqueducts can be destroyed easily by enemy action, but it would take actual invasion to put out of use a dam 2000 feet wide.

These are only a few of the benefits obtained, but enough for the present discussion. Our plea is that there be no "closing of minds" before this vast undertaking is thoroughly investigated and judged on its merits. Its possibilities are too great, not only for the Bay Area, but only somewhat less so for the State and the Nation. It requires vision, but that is what has made Los Angeles what it has become since it, too, was labeled "fantastic," not so many years ago! However, as this project, also, is covered by reports of eminent engineering authority, we will pass to a discussion of the Alameda Creek water-shed and its possibilities.

Although the two above mentioned projects promise relief eventually, there is a local supply in the water-shed of Alameda Creek that merits the fullest investigation and on which we feel it urgent to concentrate. This is the Alameda Creek system which covers a drainage area of over 600 square miles.

T. W. Espy, for many years Water Production Engineer for the Spring Valley Water Company and the City of San Francisco, states in a report to this District that "the measured stream flow down the Niles Canyon plus the diversions made in connection with San Fran-

cisco's domestic water supply amounted to an average of 112 million gallons per day during the 48-year period from July 1889 to July 1937."

Out of this 40 billion gallons per year, a very large quantity (perhaps one-third) still flows to waste into San Francisco Bay. This would cover our agricultural land twelve feet deep! The problem is how to make use of this waste water in view of its very intermittent flow. The cost of construction of proper dams and other storage works is beyond the reasonable resources of Alameda County Water District. A large part of the benefit would go to other non-contributing interests, that nevertheless have priority rights either by location or by adverse legal position. We are advised that under the theory of "waste flood water," such water belongs to him who can capture it. We have in the past and we are now constructing extensive diversion works to turn flood waters into gravel pits near Niles, but we have a condition of "flash floods" that makes it almost impossible to capture sufficient water as the crests of these flood-waves pass by.

Our small District, though in a key position, and controlling the necessary dam and diversion sites, lacks the financial resources, let alone the willingness, to carry the entire burden for the benefit of surrounding communities, as it has in the past. It seems then, that the answer must be that of co-operation with other districts affected, and with the assistance and guidance of the proper Federal and State authorities.

The solution may be in the construction either of a number of restraining dams on the headwaters of Alameda Creek or in one or more storage reservoirs of large capacity lower down, — possibly even as far down stream as the town of Sunol. A proper decision should be made by one of the Federal or State agencies charged with such duties. We hereby respectfully request that such determination be undertaken under authority of your Senate Committee on Internal and Insular Affairs.

We propose, also, that the water thus developed be divided equitably between the water users of the Livermore-Pleasanton region and those of the Niles Cone area, to the end that certain water levels be maintained in the immense underground gravel storage basins of these two areas, whose riparian rights have been dangerously impaired by the adverse use of various agencies. These rights, by the way, were acquired in the early days, when the problems were more those of drainage than of irrigation, and diversions were favored rather than opposed by many of our predecessors.

Such development would have the effect of restoring conditions to a point where our water-table would be above sea-level and thus check the inflow of salt water. The storage capacity of the above-mentioned gravels is thought to be

equal to three years of present pumping withdrawals, or sufficient to carry us through at least three very dry years.

It should be noted that experiments made by our former engineer, Mr. Cyril Williams Jr., indicated that one effect of an increase in level of water in the Niles Cone in flood time was to cause a wave of replenishment whose effect was measurable at points beyond the City of Hayward. He felt, also, that if a complete study was made, that it would show that the water table as shown by wells in the City of Alameda was at least supported, if not actually fed in part by the flood flows of Alameda Creek.

I might add, also, that Mr. Williams thought it quite possible that the deeper gravels of the Alameda and Coyote systems might be inter-connected and therefore a development on the Alameda might possibly help sustain the water-table in the delta of the Coyote.

Thus, a large part of Alameda County, and possibly Santa Clara, appears to be affected by this water source, especially since a number of smaller streams in the County have been diverted or had their water impounded.

A factor that is very important if proved true, is that we feel a considerable public interest will be served if this water, running needlessly right through the middle of these districts can be conserved. For not only will the economic interests of these two entire valleys be served, but the great cost of importing water from distant sources will be reduced by just that amount, and that our local water, otherwise, required for our salvation, will be available for other communities to which this supply is not tributary but to which temporary transfer of use might serve to tide them over while awaiting the development of larger water supply projects elsewhere. This might be covered in a way similar to that used by the

United States Bureau of Reclamation in its system of "Class 1 water" and "Class 2 water."

I will state, also, Senator Downey, that this last paragraph is merely my personal suggestion of a possible temporary use of surplus water from storage on the Alameda, but I feel confident our Directors would confirm the idea.

In presenting this report to your honorable Committee, we realize that we are covering a lot of ground that may be outside our province, but we ask that you accept our apologies therefor. Our intention is merely to show the bearing of these other projects on our problem. We assure you of our desire to co-operate and ask that you accept our thanks for your consideration of our requests in this emergency.

Board of Directors,
ALAMEDA COUNTY
WATER DISTRICT.

By W. D. PATTERSON,
President

(The intent of this last statement is that, if an engineering study showed that the storage of the entire "waste flood waters" of Alameda Creek were sufficient to maintain the ground-water tables in both the Livermore and Niles Cone areas to a fixed safe level, and that there should then still be a surplus, then that surplus,—instead of running to waste into the Bay,—could be loaned elsewhere temporarily as needed. This might carry some hard-pressed community over its crisis until other distant supplies were brought in. The essence is that here is a great waste of water right where it is needed most, dam and reservoir sites are immediately available for an emergency job—and streambeds make aqueducts unnecessary—an ideal economical set-up for quick and effective action. And moreover, it would fit in and be a part of any permanent water-conservation plan, with no duplication in later construction.)

COUNTY FLOOD CONTROL, WATER CONSERVATION DISTRICT HEARING HELD

The proposed formation of a flood control and water conservation district embracing all of Alameda County was given a thorough quizzing and going over Wednesday night in Hayward, at a mass meeting called by the Alameda County Board of Supervisors.

A large delegation of Washington Township residents were among the more than 100 persons attending.

The evening's discussion was started by W. E. Patterson, president of the Alameda County Water District, who suggested that water conservation features be omitted from the act until further studies are made, and the measure be restricted to flood control and drainage.

"It would mean economic ruin to us if the water we are now struggling to conserve in Washington Township should be taken

from us for use elsewhere," he declared.

In reply Wallace Boggs, county surveyor, told Patterson that the relationship between flood control and water conservation is so close that it is impractical to separate them in the proposed act.

A second reply was added by (Continued on page 10)

MEETING SET

Members of the Washington Union High School Board of Trustees will convene at the school next Tuesday evening for a regular monthly meeting.

Say you saw it in The Register.

SCENE IN CENTERVILLE

By IRENE MENDONCA

SUNDAY GUESTS

Mr. and Mrs. Albert L. Brown of Irvington were Sunday dinner guests at the home of Mr. and Mrs. Richard Mendonca of Oak Street.

NEAR TRAGEDY

A near tragedy occurred at the home of Mrs. James Rice of Tacoma, Washington. Mrs. Rice is the former Marie Brown of Irvington, a Washington High School graduate. The Rice family, Marie, Jim and Kathy, woke at 4 a.m. on Sunday morning to find their home filled with smoke, and burning. They tried to get the fire department but all the phones were dead due to the stormy weather. By the time neighbors drove to notify the fire department, the place burned to the ground. The car was the only thing they saved. Loss was estimated at \$12,000.

FROM CAMPBELL

Mr. and Mrs. Elmer Coit and family of Campbell spent the weekend at the home of Mr. and Mrs. Gabriel Coit of Oak Street.

FLU FIGHTING

Mrs. Mariana Mendonca of 174 Oak Street has been confined to her bed with the flu.

TELEVISION FUN

Mr. and Mrs. Richard Mendonca, Bobby and Jimmy George, visited recently at the home of Mr. and Mrs. Fred Costa of Irvington. The evening was spent with television.

FIRST CHURCH OF CHRIST, SCIENTIST—NILES

A branch of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts. Regular services are held as follows:

SUNDAY SCHOOL 10 A.M.
MORNING SERVICE 11 A.M.
Wednesday Evening Testimony Meetings, 8 o'clock. Reading Room is open Tuesday and Saturday afternoons, 1 to 3, and Thursday evenings, 7 to 9. Church edifice is at Second and E Streets.

which is indeed marvelous. Also Mr. Costa played the piano and everyone enjoyed his music.

NEW RESIDENT

Mr. Silva has purchased a home on Joseph Street. He sold his property on the Irvington-Centerville Road.

FROM COLORADO

Mr. and Mrs. Harold Herme-s of Bayfield, Colorado, spent the weekend at the home of Mr. and Mrs. John F. Brown of Joseph Street. Mrs. Herme-s is formerly of San Francisco. The couple have been visiting relatives in Washington and Salinas. The Browns enjoyed very much the stay of their friends.

FACULTY WIVES MEET

The High School Faculty Wives held their dessert bridge at the home of Mrs. Virginia Loze of Mt. Vernon Avenue, recently. Assisting as co-hostess was Mrs. Bruce Phillips.

EVENING GUESTS

Mr. and Mrs. Rufus Silveira and Danny of Newark spent Tuesday evening at the home of Mr. and Mrs. Richard Mendonca of Oak Street.

ON THE SICK LIST

Jeanette Simpson, daughter of the Paul Simpsons of Pine Street, is ill.

BIRTHDAY DINNER

Danny and Mrs. Edward Agna were guests at a birthday dinner party in honor of Mrs. Maurice Caldeira of Newark, given by Mr. and Mrs. Joe Reichmuth. She received many lovely gifts. The evening was spent at cards and games. The guests present were Mr. and Mrs. Joe Reichmuth, Mr. and Mrs. Maurice Caldeira, and Miss Isabel Perera.

SUNDAY IN THE CITY

Mr. and Mrs. Karl Nordvik, Mickey and Billy, spent Sunday in San Francisco. They visited with Mr. and Mrs. Arthur Twitchet who formerly lived on Oak Street. On their way home they stopped

off in Alameda to visit Mr. and Mrs. Lund. They had a very enjoyable day.

SNOW FUN

Mr. and Mrs. David Dickin of Pine Street recently took a snow trip to Long Barn. They had a wonderful time.

DINNER GUESTS

Mr. and Mrs. Keith Jordan of Modesto were dinner guests at the home of Mr. and Mrs. Paul Simpson of Pine Street, on Tuesday, Washington's Birthday.

BETTER NOW

Mr. G. Rehrig of Pine Street has been ill but is feeling much better now.

DOUBLE TROUBLE

Mrs. Marion Pettibone is confined to her bed with the mumps and flu. Her mother, Mrs. Lula Parker of Santa Monica, arrived yesterday and will remain until Mrs. Pettibone recovers.

HOME FROM HOSPITAL

Robert Talley of Thornton Avenue arrived home on Saturday from the hospital where an operation was performed on his eye. He is home recuperating and awaiting another operation on his eye again.

AT HOME

James A. Duarte, a student at the Salesian House of Studies, recently visited at the home of his parents on the Centerville-Niles Road.

DANCE SATURDAY

A Youth Center dance will be held on Saturday at the Parish Hall in Centerville.

WEEK-END GUESTS

Mr. and Mrs. Manuel Bettencourt of Ripon were week-end guests at the home of Mr. and Mrs. Edward Agna of Thornton Avenue. Mrs. Bettencourt took her final citizenship examination in San Francisco and passed it. She is a former Centerville resident.

S.P.R.S.I. DANCE

A social dance will be given at the Mission San Jose I.D.E.S. Hall on Tuesday, March 1, from 8 to 12. Sponsoring the dance will be Councils of S.P.R.S.I. of Irvington, Milpitas, Mission San Jose and Warm Springs. All subordinate councils have been invited to attend.

VISIT IN SAN CARLOS

Mr. and Mrs. Erle Hygelund, Diane, and Mrs. Martha Juhl visited at the home of Mr. and Mrs. Harold Evans of San Carlos on Sunday. A delicious dinner was served and everyone had an enjoyable time.

NILES RESIDENT RIDES IN OAKLAND RODEO

Roy E. Sims, 21, Box 492-A Niles Road, participated in the bareback riding contest at the Oakland Boys Club Rodeo at the Exposition Building in Oakland last Saturday night. Sims rode the full 10 required seconds. He also rode again last night and will ride again on some as yet unannounced date.

CANYON HEIGHTS

By MARGARET COLE

HOUSE GUEST

The D. J. Clarks of Canyon Heights Drive had as their house-guest last week-end, Mr. Raymond Osborne of Twain Harte. The Osbornes used to live in the Heights. Remember?

WE'LL MISS HER

We'll all miss Nadean (Mrs. D. J.) Clark while she's away in Colorado visiting her mother and father. In addition to being darn good company, Nadean is the kind of person who always has a new, interesting book on hand when you are fresh out of things to read.

NEWLYWEDS

Larry Powell was married on February 15 to Miss Betty Sutherland of Riverside. The couple will live in Oakland where Larry is enrolled in the Police Academy.

BRIDAL SHOWER

Mrs. Carl Crosswhite, Larry's mother, and Mrs. E. A. Miller, were co-hostesses at a shower given in honor of the new Mrs. Powell. Among the guests were Frances Mara, Edna Mara and Betty Nelson. Several others were unable to attend but sent congratulations and many delightful gifts.

Larry's aunt, Mrs. Louella Frick of Warm Springs, also gave a shower for Betty last Sunday. On hand to honor the bride were Mr. and Mrs. J. B. Nickels and Mr. and Mrs. T. J. Nickels of Warm Springs, Mr. and Mrs. Bruce Nickels of Niles, Mrs. Gordon Bezley of Sunnyvale, Mr. and Mrs. Woodrow Nickels, Mr. and Mrs. B. J. Langner and Mr. and Mrs. Carl Crosswhite of Canyon Heights, and Mrs. Joe Halliwell of Decoto.

AN INVITATION

Den Three of the Niles Cub Pack had a party at their regular meeting on Wednesday. Den Mother Mrs. White felt they deserved a treat after their hard work in preparing for last Thursday's pack meeting. The Den has a small membership at present so Mrs. White hereby extends an invita-

AMERICAN LEGION—Pat Hall, Universal-International star, this week was chosen queen of the California Legion's Sixth Annual Rehabilitation Stamp Sale. The drive is held to help raise funds for the Legion's Rehabilitation and Hospital welfare program. All veterans are helped with the money received whether they are members of the Legion or not.

MISSION SEWER WORK IS BEGUN

Work began Monday morning on laying additional sewers in the Mission San Jose area, for hookup to the Irvington-Mission San Jose Sanitary District.

A. J. Peters and Son, Contractors, is in charge of the project, which will be completed at a cost of \$54,672. Peters was the lowest of four bidders on the work.

First lines to be laid are located in the Mission Road-Olive Avenue area.

Work is being financed by formation of a special assessment district, and persons gaining benefit from the lines will be assessed the cost. The work will complete sewerage of the Mission San Jose area, begun last year.

R. J. Wright, secretary of the Sanitary District board, also revealed work on the new Irvington Disposal plant is progressing satisfactorily, and completion is due by the end of March.

CONVALESCING

Mrs. L. L. Lewis of Riverside Avenue, Niles, is currently convalescing in Alameda Hospital from recent surgery.

She is expected to return home next week.

"I heard that Sue is married, do you know if it's true?"

"No, I wonder what her new name is."

Brides-to-be, you owe it to your friends to tell them the happy news first-hand: don't let them "wonder what your name is now!" And they want to know when and where the event took place.

The easy, quick and correct way is by sending Wedding Announcements: all the newest forms and styles are on display here... a size for every taste and every pocketbook.

A free Bride Booklet... all about the Wedding... it's authoritative and contains many hints you'll want to know about wedding etiquette... call for your copy.

DE GUADALUPE YLI FETES NEW BRIDES

De Guadalupe Institute, Y.L.I., celebrated "Brides' Night" ceremonies Tuesday night at Boliba Hall.

Brides who were honored guests at the affair included Carmelita Berge Freitas, Florence Rodrigues, Gloria Vargas, Edith Pine and Vivian Escobar.

Chief entertainment for the evening was provided by a mock wedding skit, performed by Mayme Roderick, Ruth Silva, Marguerite Crane, Delores Lemos, Mary Lucas Nunes, Mary Azevedo, Viola Dias, Eleanor Azevedo, Olive Silva and Susan Murphy.

Also during the evening gifts were presented to the brides in the memory of the institute.

Refreshments were also served during the evening, which was arranged by Mayme Roderick, Eleanor Azevedo, Olive Silva and Miss Mary Azevedo.

tion to join to any boy between the ages of nine and eleven who would like to become a Cub.

HIS SEVENTH

Young Jimmy McKiernan celebrated his seventh birthday on Tuesday. With great enthusiasm, Billy, Sue, Denny and Pat McKiernan and Kenny Cole, assisted Jimmy in demolishing a huge, scrumptious-looking cake and incredible quantities of ice cream.

FROM WASHINGTON

Billy Neilsen's sister, Mrs. P. J. Heenan of Longview, Washington, is here with her sons, Pat and Mike. The Heenans have been visiting Mrs. Heenan's mother in Denver, Colorado. They will stay with the Neilsens for about two weeks before returning to their home in Washington.

Billie's other sister and brother-in-law, Mr. and Mrs. P. C. de Weese of Hayward, joined the family party last Tuesday.

United States Marine Corps was authorized by Congress in February, 1943.

MOTHERS TO GIVE SPRING FESTIVAL

A gala spring bazaar will be presented May 1 by the Alvarado Mothers Club on the elementary school grounds, Mrs. Alvina Brune, president of the club, announces.

The festival will be held to raise funds for furtherance of school benefits sponsored by the group.

Booths will be set up and hand made articles will be sold to those who attend. The festivities will start at 2 p.m.

Alvarado Girl Scouts will help in operating the hotdog and soft drinks booth for the occasion, according to Mrs. Brune. Mrs. Marian Hocking is the Girl Scout leader.

There will be dancing on a platform outdoors to music furnished by recordings.

CENTERVILLE MAN ON FAIR GROUP

Appointment of Fred Lewis of Centerville to the Farm Exhibits and Machinery Committee of the Alameda County Fair was announced this week by Dr. Paul E. Dolan, president of the County Agricultural Fair Association.

Construction of new exhibit buildings and other improvements at the fair grounds are scheduled for completion early in June, and the committees will start work at once to get activities under way.

High-voltage trouble shooters

When winter storms hurl broken trees across power lines, trained P. G. and E. "trouble shooters" speed into action to restore your electricity. First step is to set up road blocks around the danger zone. Then, armed with "hot line" tools, the crewmen unscramble the high-

voltage wires which may still be charged with electricity.

Next they cut out any sections that must be replaced, repair them fast and flash the word to the Dispatcher to begin pouring power back into the lines.

"SOS" is radioed or otherwise rushed to every "trouble man" in the area...and the closest are assigned to the mission. If they need extra help, they call for reinforcements.

Lights go on again fast because P. G. and E. trouble shooters stand a 24-hour vigil. Their job is to keep power flowing to homes, farms and factories.

for the record

12,000 miles of new power lines have been strung since V-J Day.

This is just part of P. G. and E.'s postwar power-building program...that already has added half a million new horsepower of generating capacity.

Work never stops on our power-building program

PACIFIC GAS AND ELECTRIC COMPANY

HAPPY REUNION

No lovers, reunited after a long separation, could have aroused more interest than did the reunion of a pair of shoes this week belonging to Mrs. Willard Rosenquist of Niles.

Romance in a pair of shoes? Well, read on, and see if you don't agree!

Last fall, way back in September

or October, Mrs. Rosenquist bought a pair of shoes. The shoes proved to be uncomfortable driving shoes, so she kept an old pair in the car just for "spares," changing into the new ones when she got out of the car to go any place.

However, in the opening and closing of the car door one afternoon, one of the new ones fell out. Mrs. Rosenquist didn't miss it until she arrived home. She had paid more for the shoes than she ordinarily did, so made every effort to recover it, retracing her entire route for that afternoon. But no luck.

She immediately thought of the only thing left to do: advertise in the columns of The Township Register for the missing shoe. Still no shoe. The mate to the shoe was so new, however, that she kept it, reluctant to throw it away even though, of course, it was absolutely of no use to her.

The scene changes to a home on Third Street in Niles where a woman is giving her house a spring cleaning. The time is now, this week of February 1949. She wants to be sure she hasn't missed anything, so she reads everything in the old papers, even the classifieds, before she discards them (smart woman!).

Her attention is suddenly caught by a "lost shoe" item. It rings a bell in her memory. She remembers a fine new shoe that one of her children had found in the street way back last fall. She had put it away, reluctant to discard it because it was so new, even though, of course, it was absolutely of no use to her.

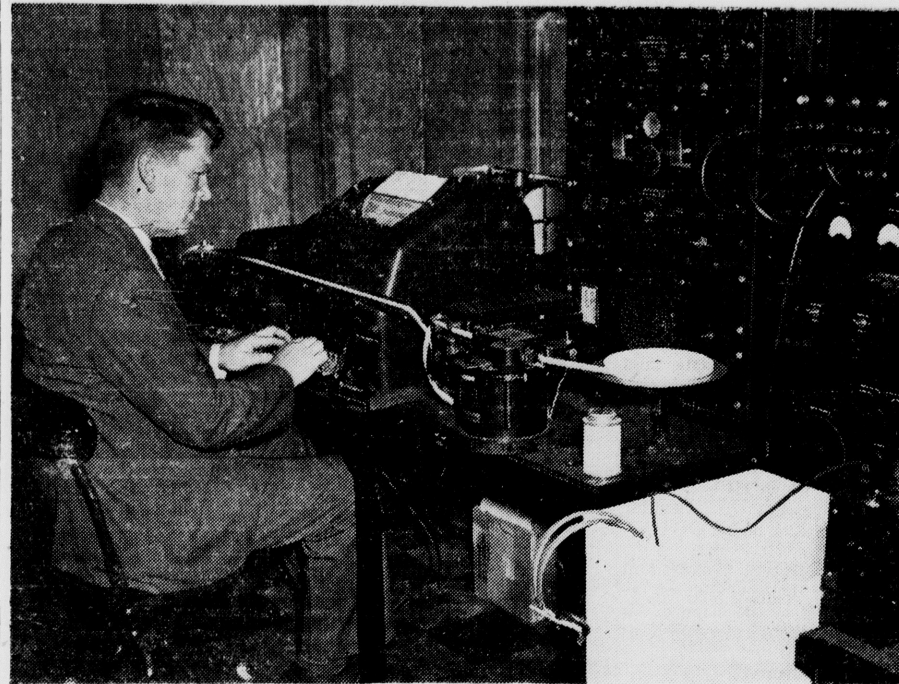

She looks for the shoe. Sure enough, it is still there in the box where she so carefully placed it. She phones Mrs. Rosenquist, who receives the news with incredulity, and hastens over to Third Street. Sure enough, the shoe is the long-lost one!

So everyone is happy, even the Township Register, which can now boast that advertising in its columns eventually brings results—even though the results may be six months in coming!

Say you saw it in The Register.

INTERESTING PEOPLE

Niles Radio Man 'Listens In' on World

MALCOLM COLE

Unless you're totally unaffected by noise—and few of us are—you'll likely wish you had cotton in your ears, or ear muffs, if you should visit M. G. "Mac" Cole at his "listening post" in San Lorenzo.

To the uninitiated, the din is a nerve-racking discord of weird sounds ranging from a low hum to an ear-splitting shriek.

But to radiomen such as Mac, the noise seems to make sense. His job is a completely fascinating one and one that challenges the imagination. For he picks dots and dashes out of the air and turns them into pictures and news stories for one of the world's largest news services, and then relays them to central points whence the stuff is distributed to newspapers subscribing to the service.

Situated in San Lorenzo in a shack that resembles nothing so much as a two-car garage, it is hard to imagine that here is the nerve center of a large news service.

"The shack doesn't look like much on the outside," said Mac honestly, "but step inside and you'll be amazed at the array of elaborate control boards, miles of wire, complex gadgets, and—most of all—the noise."

"Sure, I get used to the noise," he replied, in answer to our query. "After all, I've been doing this sort of work for 25 years. As a matter of fact," he grinned, "this is soothing compared with the devastating effect of my three children all talking at once at home."

Mac likes his job, as do other radiomen with whom he works.

It is a means of keeping in touch with the world. In the middle of a particularly fearsome blast, for example, someone will say, "Tell Tokyo to send that over a different frequency. His signals are weak." The world, in effect, is at their finger-tips.

Mac came to Niles about three years ago with his wife and three children, one of whom (Margaret) is known through the pages of The Township Register for her scintillating column, "Hi Chatter."

Born in Newport News, Virginia, Mac spent his schooldays in Washington, D. C. At the earliest possible age he joined the Navy and embarked on the career he has followed ever since. As "Sparks" he traveled widely on destroyers, cruisers, and battle-wagons and then, one day in 'twenty-five, was assigned to the American Embassy in Paris!

"My life in Paris was perhaps the most interesting of my whole career," Mac said with a reminiscent twinkle coming into his eyes. "Those were the days

PTA FOUNDERS DAY CEREMONY PLANNED

Mrs. Ray Rodriguez, president of the Centerville P.T.A., announced that a Founders' Day ceremony will be held in the school auditorium on Friday evening, March 4, at 8:15 o'clock.

Those in attendance will have an opportunity to visit the new four-classroom addition which has just been completed.

when Herrick was ambassador to France; the days when the first trans-Atlantic airplane flights began, when Paris was at its gayest and when American money enabled one to live the life of Riley."

Mac's proud of having met aviators, admirals, and Ruth Elder on the occasions of their receptions at the Embassy after their successful flights. Being away at the time, he missed the Lindbergh reception.

All in all, Mac's stay in Paris was a memorable two years in his life and upon being transferred home he felt that anything else the Navy had to offer would be in the nature of an anticlimax.

"After I received my discharge from the Navy," he continued, "I worked for R.C.A. Communications and A.P. Radio. Married in 1932, I expected to settle down for life in beautiful Westchester County, on the border of New York and Connecticut. But after a few years there, I was suddenly transferred to California. So here we are, living in Niles."

The Coles like it here, however, and Mac has only two worries. One is the effect of the current phase of the sun-spot cycle on radio reception, and the other is, of all things, a headstone! Adjacent to the radio shack is an old cemetery, and right under a window is the headstone, inscribed with the initials "C. P."—Mac's identifying call signature!

WARM SPRINGS

By EVA O'MALIA

4-H LEADERS MEET

Harry Bolton, assistant farm advisor of the U. S. Department of Agriculture, Extension Service, Hayward, met with 4-H Warm Springs leaders at the home of Mr. and Mrs. Marvin Williams last Friday evening at 7:30.

The group discussed and completed plans and activities for the 4-H Community Club during the coming months. Following the meeting, Mrs. Marvin Williams served refreshments to the group.

Those who attended the meeting were: Mrs. Mabel Santos, Miss Josephine Wagner, Jimmie Coelho, Mr. and Mrs. Marvin Williams, Leonard Gonsalves, John Souza, and Mrs. Eva O'Malia.

WEEK-END GUESTS

Mrs. Carrie Lawrence and her grandson, Arnold Rose, both of Mission San Jose, spent last weekend at the home of Mr. and Mrs. Manuel Duarte and daughter, Maxine.

SUNDAY VISITORS

Sunday visitors at the home of Mrs. A. Azevedo were Mr. and Mrs. L. P. Furtado of Half Moon Bay. On Tuesday other visitors from Half Moon Bay at the Azevedo home were Mr. and Mrs. John Praeder and daughter, Mary Lou, and Mrs. Mary Bell.

AMERICAN LEGION DANCE THIS SATURDAY NIGHT

Another in the series of old-fashioned and modern dances sponsored by the American Legion will be held this Saturday night, Feb. 26, at the Veterans Memorial building in Niles.

Dancing will be held from 9 to 1 o'clock. The public is invited.

CHEVROLET

is the most Beautiful BUY of all

The most Beautiful BUY for Styling

Look at this exciting new Chevrolet from any point of view—inside and outside, front, side and rear—and you'll agree it's the smartest-looking automobile of this new year. For it alone, of all low-priced cars, brings you the distinguished beauty and luxury of Body by Fisher—the body featured on highest-priced cars.

The most Beautiful BUY for Comfort

Settle into the deep, soft, form-fitting seats. Notice the extra-generous head, leg and elbowroom of the Super-Size Interior. Ride in this "car that breathes"—with an advanced heating* and ventilating system that inhales outside air and exhales stale air—giving comfort beyond compare! *(Heater and defroster units optional at extra cost.)

The most Beautiful BUY for Driving and Riding Ease—with new Center-Point Design

Most sensational of all the advancements in this thrilling new Chevrolet for 1949 is the entirely new kind of driving and riding ease which it introduces into the low-priced field. New Center-Point Design—including Center-Point Steering, Center-Point Seating, lower Center of Gravity and Center-Point Rear Suspension—brings you driving and riding results heretofore found only in more expensive cars. The difference is so great—and so pleasing—that it's no exaggeration to say it is proving a revelation to all who drive or ride in this car. Remember—only new Center-Point Design can give these finer motoring results; and only the new Chevrolet offers Center-Point Design at lowest cost.

The most Beautiful BUY for Performance

What thrills you'll have when you drive this car! It's the only low-priced car with a Valve-in-Head engine—the engine which more and more makers of higher-priced cars are adopting—because it gives a much finer combination of performance, economy and dependability. And Chevrolet's world's champion Valve-in-Head engine holds all records for miles served and owners satisfied.

The most Beautiful BUY for Safety

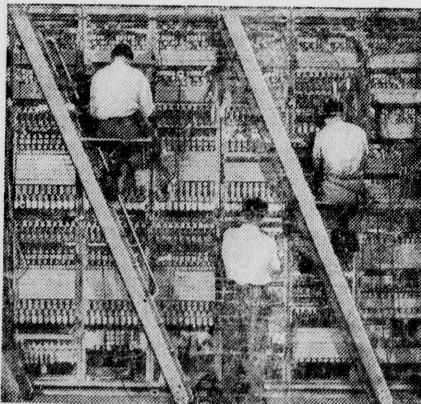

Yes, you and your family will enjoy maximum safety. For Chevrolet brings you fivefold safety protection found only in this one low-priced car: (1) New Certi-Safe Hydraulic Brakes; (2) Extra-Strong Fisher Unisteel Body-Construction; (3) New Panoramic Visibility; (4) Safety Plate Glass in windshield and all windows; and (5) the super-steady, super-safe Unitized Knee-Action Ride.

ONE OF TODAY'S BIGGEST BARGAINS

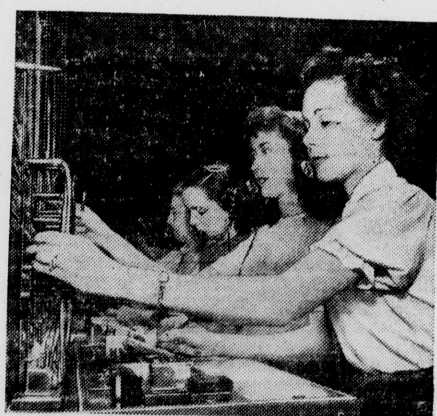

How your telephone gives you more real value today in spite of sharply-increased costs of furnishing service

1. For a quick call to the druggist, for business, for every purpose, your telephone is a more valuable servant today than ever. It can run more errands, do more jobs. In the past ten years, telephones on the Coast have doubled. We're continuing to add them rapidly. Result: You can get in touch with more people. More people can get in touch with you.

2. If you could see how much expensive equipment goes to work for you each time you make a call, you might wonder how it can be done... for just a few dollars a month. Lines, cables, poles, buildings, intricate equipment—all must be ready... along with the people who man them... to serve you when you pick up your telephone.

3. More "Voices with a Smile" are serving the West today... our payroll is the biggest ever. Postwar costs have shot up all along the line on the things we do to provide service. The facilities to serve new telephones today cost about twice as much as prewar. Yet telephone rates are up much less than almost anything we buy or you buy.

4. There is no way to determine the full value of a telephone, of course. A call may be routine—or it may save a life, make a new friend, close a business deal. Yet a few pennies still buy a telephone call. In these days of high prices, it's good to know that your telephone keeps giving you real value—it's one of today's biggest bargains.

The Pacific Telephone and Telegraph Company

Your telephone gives you more service today than ever before

**A LECTURE
on
CHRISTIAN SCIENCE
Entitled
CHRISTIAN SCIENCE: THE RE-
LIGION OF JOYOUS
ATTAINMENT**
by
Earl McCloud, C.S.B.
of San Antonio, Texas
Member of the Board of Lectureship of The Mother Church,
The First Church of Christ, Scientist,
in Boston, Massachusetts

What is it we are seeking? Every body, whether consciously or unconsciously, is seeking after something. Health, plenty, education, success, happiness, culture, harmony, peace—these are only a few of those useful things for which we, and those around us, are reaching out and hoping to attain. All most everything—good or bad—is at times the aim or purpose of mankind. We often can ascertain the state of our progress—spiritually or otherwise—by determining what is our goal in consciousness. Paul points out the need for seeking and striving after good in his epistle to the Philippians where he says, "Brethren, I count not myself to have apprehended; but one thing I do, forgetting those things which are behind, and reaching forth unto those things which are before, I press toward the mark of God in Christ Jesus" (Phil. 3:13, 14).

We, who are students of Christian Science, have come to know that God, the source and origin of all, is the constant and continuous Giver of good—and of good alone—to all His children everywhere. One among the many great services rendered to the world by Mary Baker Eddy, the Discoverer of Christian Science; the Founder of the Church of Christ, Scientist; its forever Leader, and the author of its textbook, "Science and Health with Key to the Scriptures," is her teaching that "humanity has the right always to the attainment of good—and good alone—because God has created nothing else, and certainly has meant them to have and to enjoy nothing less."

Mankind's Need for Joy
Jesus said, in teaching his doctrine, "Your joy no man taketh from you" (John 16:22); but as one observes the going and coming of mankind, what is his impression as to the apparent greatest need of humanity today?

It is joy—expectant and confident joy! What worry, fear, pain, greed, jealousy, hatred, malice, and limitation are seen pictured upon the faces of those who scurry or creep by us—each seeking a way out of difficulties, but apparently looking in the wrong direction for the attainment of relief.

There is nothing in matter or material means with which to meet this demand for help. Alas, we know from long experience that that is not the way out. We have tried all those paths—and found each only a short, rough, dead-end street, from which all have had to retreat in confusion.

Here we have this world of ours groping in the midst of its own making, stumbling and falling, nursing its wounds, its hunger for peace and comfort—and all because it has confused material knowledge with divine intelligence; it has been looking in the wrong direction in its efforts to evade this maze and morass of misery.

Christian Science is pointing the world to the one way out—complete and joyous reliance upon the God and architect of the universe, who planned everything so differently for us all.

The Bible, that precious volume which, with our textbook, was ordained by Mrs. Eddy to be the joint pastor of the Church of Christ, Scientist (Manual, Art. XIV, Sect. 1), seems with admonitions to be glad and rejoice, to look to God with joyous expectancy of the attainment of good—and good alone.

Our Father Knows Our Needs
An all-good God certainly would not have counseled us to turn to Him with confidence and expectancy if He had not planned and been prepared to care for all our needs. Christ Jesus has told us God already knows what things we need before we ask. And he has counseled us to pray, believing that we receive what we need.

What the world needs today is this joyous confidence in answered prayer: in the home, on the playground, in business, in school, or on the battlefield—whether on land, on or under the sea, or in the air. On all sides we find evidences of this aroused appreciation of the effectiveness of prayer—a fervent reaching out to the giver of good (and of good alone) for salvation from the encroachments of evil.

The chapter on "Prayer" in the Christian Science textbook points out the proper way of approaching God. It shows that divine Love is ever available to all mankind under all circumstances. It recommends silent prayer as most conducive to

active results. It shows that right desire itself is prayer. It demonstrates that prayer must include an absolute faith in joyous attainment. It points out that we should not attempt to use prayer as a confession, to tell God that which He already knows, or ignorantly to seek to influence God by praise to increase His already bountiful outpourings. It shows the error of pleading with God, as one would plead with mankind; the error of reminding God to do what already is done.

Mrs. Eddy has made the following important statement in the Christian Science textbook (p. 246): "Life and its faculties are not measured by calendars. The perfect and immortal are the eternal likeness of their Maker."

Mankind, on the other hand, seem to accept the false belief that they are destined by divine decree to a short span of life, in which their efficiency is lessened by infancy, childhood, and adolescence at its beginning, and by waning powers, decrepitude, and senility at the closing of this period.

Such things could not be true of man made in the image and likeness of God. Most certainly not. There is no joyous expectancy of attainment in such a view—rather a blighting sense of futility and uselessness.

Let us consider Moses, who, at the age of fourscore years, undertook one of the world's biggest mass migrations, in the face of a hostile ruler who was backed by great force of arms, and carried it to such a point of success that he could leave its culmination to Joshua, his second in command. And how many were in this migration which he directed? The Bible says there were about six hundred thousand men, and there were women and children besides. And there were also great herds of sheep, and goats, and cattle, and other goods to be transported and cared for.

Thus did his experience refute the despairing note of the Psalmist about human frailty, by his carrying on this great task for forty years—until he had reached sixscore, one hundred and twenty years of age.

And what was his condition at the end of that time? The book of Deuteronomy says, "His eye was not dim, nor his natural force abated" (Deut. 34:7).

Mrs. Eddy points out this fallacy that God not only has set a limit upon man's life, but enforces it. She shows us we have a right to the attainment of a long, full life of service.

Existing in eternity, God is no older today than He was the day you were born. Then how can you—His image and likeness—be any older? You cannot. Age, then, is self-inflicted through wrong thinking. We all are living right now in the very day in which God created man in His image, after His likeness.

Mrs. Eddy gives examples in Science and Health of the recovery of youthful faculties or of the long retention of them, demonstrating that vigor and vitality are man's eternal birthright, if man will but vigorously claim them. She warns against recording ages. She calls attention to the human tendency to measure and limit that which is beautiful and good, inferentially pointing out the tendency in the opposite direction to put no limit whatsoever upon that which is evil and ugly.

And what does Mrs. Eddy give us for reassurance against these lying arguments? Listen! "The radiant sun of virtue and truth coexists with being. Manhood is its eternal noon, undimmed by a declining sun" (Science and Health, p. 246).

Mrs. Eddy did much to prove this in her own experience. She accomplished so many highly important achievements for the Christian Science movement long after she had passed the threescore-and-ten lie of limitation. She was put to many tests which proved the keenness and constructiveness of her thinking and set at nought mortal mind efforts to limit or destroy her lifework.

The Christian Science Monitor
One of the outstanding tasks she completed in the course of this period was the founding and the launching of that great newspaper, The Christian Science Monitor, the mission of which she described as "to injure no man, but to bless all mankind" (The First Church of Christ, Scientist, and Miscellany, p. 353).

And how wonderfully the world is being blessed at this time by this ably edited newspaper, which made its appearance in 1908, when our beloved Leader, according to the reckoning of this world, passed the eighty-seventh anniversary of her human birth!

We can learn to say with her, "Let us then shape our views of existence into loveliness, freshness, and continuity, rather than into

age and blight" (Science and Health, p. 246).

And what about the sick? Have they also the right to look to God with joyous expectancy of the attainment of good—and good alone? The sinner has been taught to go to God for healing, and he is assured by theology that he certainly will be healed. The sick, on the other hand, have been turned to material medicine rather than to God.

Mrs. Eddy, doing another of her grand good turns for humankind, has pointed out the fallacy of this in no uncertain terms. She says on page 143 of the textbook, "The sick are more deplorably lost than the sinner, if the sick cannot rely on God for help and the sinner can."

In my first reading of the Christian Science textbook, this statement startled me, because I complacently had accepted the general impression that the sick, although good and Christian, must rely upon material means for healing, while the sinner, no matter how hardened, has ready access to Spirit and spiritual means for relief. I was jolted out of this complacency by Mrs. Eddy's plain language.

Unreality of Sickness

When you go out with your camera, do you point the lens at unpleasant objects, or do you select scenes you wish to treasure? When you look through the camera any voice in the matter? Can it say, "Oh, no, I don't want that thing pictured on me"? Of course not! Whatever is in front of the lens, when the shutter flickers open and shut, must be imprinted upon the film.

Just so it is with one's consciousness and his body. Compare one's consciousness to the lens, and his body to the film. When your consciousness is "imprinted at" or filled with wrong thoughts of any description, can your body cry in alarm, "Oh, no, I don't want that thing pictured on me"? Of course not. Whatever of error is held in thought may be pictured on the body, unless corrective measures are taken. The body is just as helpless as the film.

You may ask, "Does Mrs. Eddy say anything like that in her writings?"

Body Expresses Mortal Mind

Oh, yes. She says: "A material body only expresses a material and mortal mind. A mortal man possesses this body, and he makes it harmonious or discordant according to the images of thought impressed upon it. You embrace your body in your thought, and you should delineate upon it thoughts of health, not of sickness" (Science and Health, p. 208).

Jesus, through his joyous confidence in the omnipotence, omnipresence, and omniscience of God, good, manifested that Christ he had been commissioned to make plain to a waiting, suffering world.

Jesus Revealed the Christ
In his overcoming of sickness, lack, sorrow, sin, and death—for himself and others—he revealed the Christ as that saving, healing manifestation of God which had been shown to the ancient prophets, and which is available to us here, today.

As in spiritual day and his, so now we find spiritual right ideas, active in the human consciousness, are the Christ at work, leading us out of darkness into light; out of sickness into health; out of lack into prosperity; out of war and fear into joyous peace; out of sorrow into happiness; out of seeming failure into joyous attainment.

When John the Baptist sent to Jesus some of his followers to inquire if he were that Messiah, or Christ, that had been promised, their attention was called to the works of healing that were being done. These were offered as the highest proofs of the appearance of that Truth, which today, as then, restores sight, hearing, strength, happiness, health, and peace to mankind.

Christian Science is presenting to the world the conviction—nay, the absolute knowledge and understanding—that the Christ is the manifestation of God to a certain end. As such, the Christ must always have been, is now, and ever will be available to meet the needs of mankind.

A young father has been told by many physicians that his beloved only child was suffering with chronic croup for which they knew no cure. They drew the darkest of pictures concerning what he and his wife might expect with the next seizure the little one suffered. For years he had had a faltering trust in Christian Science. So, one night when he found the child with all the dreaded symptoms, instead of calling a physician—a number of calling a physician to another room and read for a few minutes before calling a Christian Science practitioner of his acquaintance.

There was so much noise from the baby's bedroom he could not hear the voice of the telephone operator, but gave the practitioner's number anyway. When a calm voice answered, he poured forth his agony of fear, and what the physicians had predicted. The emphatic reply was, "Let's thank God it isn't so!" Much startled by this assertion the practitioner had made, he returned to his child's room to find her soundly and quietly asleep, and with no more symptoms of croup than he himself had.

What had occurred here? Mrs. Eddy, in her explanation and application of Christ, Truth, to human affairs, has pointed out that often the illness of young children can be healed through the uplifting of the parents' thoughts. This strong statement of Truth had turned the father's thoughts from despair and fear, and the child was instantly healed.

I know this family well. Not so long ago, when I met this girl—now a healthy, happy young woman—I asked her if she ever had had another attack of the croup. She replied that, save for having heard this story from her parents, she had no knowledge of ever having had any such disease. And so we see that Christ, as demonstrated in Christian Science, not only heals instantly, upon occasion, but it also heals finally and completely, eliminating even the memory of unhappy experiences.

Every Human Need Met

And how about those who seem to lack the wherewithal to meet the financial demands made upon them daily and hourly? May they likewise look to the Giver of good—and good alone—with joyous expectancy of attainment?

A young newspaperman who, shortly before, had begun looking into Christian Science, found himself apparently needing more money. He couldn't see where it could come from under the circumstances under which he was working. He felt led to follow the admonition of Isaiah, "Enlarge the place of thy tent, and let them stretch forth the curtains of thy habitations: spare not, lengthen thy cords, and strengthen thy stakes; for thou shalt break forth on the right hand and on the left" (Isa. 54:2, 3).

In his consequent effort to see farther and more clearly, to enlarge the scope of his consciousness of supply, he went to a Christian Science practitioner, who told him he had the right to look to God—the Giver of good and good alone—for the attainment of his legitimate desires.

Much comforted, the young man returned to his work and continued to think along these lines. Things began to happen almost immediately. The managing editor left for a more promising opportunity in the East, which led to a war correspondent's job and the writing of successful books. The news editor was made managing editor. The young Christian Scientist was promoted from assistant city editor to news editor, with a nice increase in salary. The city editor was given more money because of having somebody promoted over his head. A newspaperman from another section of the country, who walked into the office that day seeking employment, was made assistant city editor. And thus it went, many being blessed.

It didn't stop there. The man who had asked help found many more opportunities to be more useful. He was asked to write editorials for a newspaper in a city not far away. He wrote after-dinner speeches, and minstrel monologues, and was paid for them, too. These opportunities had been passing him on the street before. Now they came up to him and demanded attention. When the time came,

he had the money he needed. You may ask how I know so much about this case. Well, I was that young newspaperman.

You see, you have to get your own consent to be prosperous, as you do to be well and strong, to be happy and joyous. We all can be spiritual seers. We need to be, because today we are being assailed through the five material senses with the seeming evidence of war, chaos, destruction and lack.

Jesus said, in part, in the twenty-first chapter of Luke's Gospel: "But when ye shall hear of wars and commotions, be not terrified. . . . Nation shall rise against nation, and kingdom against kingdom. . . . And when these things begin to come to pass, then look up, and lift up your heads; for your redemption draweth nigh."

How applicable this seems to present conditions!

From the beginning of mortal history, unscrupulous men, longing for world domination, have striven to utilize their falsely mental powers to dominate others and to turn all human agencies to their own glorification and material enrichment. One by one these self-ordained Caesars have risen, trod the world stage for a season, temporarily wrecked nations, and wrung tears from the eyes of millions. Where are they now? Vanished from the sight of mortal man—all but forgotten save for crumbling pages in the fading history of this material universe. They did no good. The evil they did lives thus but feebly after them.

Mankind, reflecting in some degree the spiritual qualities, faculties, and attributes derived from the creator—the creator of good and good alone—has survived throughout the ages of persecution of his would-be dominators and destroyers. The real man is indestructible because of his indissoluble connection with his Maker. He lives on to bear witness to the eternality of his God-given being.

Man's seeming bondage to all forms of tyranny must yield to a diviner sense of his freedom, his God-ensured liberty. We, as Christian Scientists, have come to know the real man is not in bondage to any material sense of power. Created in the image and likeness of his Maker, given dominion over all things, nothing can cast him down

from that high level which is his by divine decree.

The Psalmist clearly depicted this state of mind when he sang: "I will lift up mine eyes unto the hills, from whence cometh my help."

"My help cometh from the Lord, which made heaven and earth."

"He will not suffer thy foot to be moved: he that keepeth thee will not slumber."

"Behold, he that keepeth Israel shall neither slumber nor sleep. The Lord is thy keeper: the Lord is thy shade upon thy right hand."

"The sun shall not smite thee by day, nor the moon by night."

"The Lord shall preserve thee from all evil: he shall preserve thy soul."

"The Lord shall preserve thy going out and thy coming in from this time forth, and even for evermore" (Ps. 121:1-8).

IRVINGTON CHAMBER MEETING CANCELLED

Washington's Birthday played havoc with at least one organization in the township this week as the regular Tuesday noon luncheon of the Irvington Chamber of Commerce was postponed because of the holiday.

Rowan Henry is club president.

NEWARK FIREMEN'S BALL IS TOMORROW

Tomorrow evening is "Red Wagon Night" in Newark.

Newark Firemen will be hosts for the evening, at the 19th Annual Firemen's Ball, to be held at the Newark Pavilion beginning at 8 o'clock.

Music for the affair will be provided by Frank Gyax and his orchestra.

The dance will be held under direction of a committee headed by Firemen's Club President Lee Wilson, assisted by James Dias, Maurice Caldeira, Orland Menezes, Joe Caldeira and Chief Joseph E. Paschote.

Ticket sales have been conducted by all club members, and more will be available at the door tonight.

Funds raised for the affair will be used in Firemen's Club activities during the coming year.

Say you saw it in The Register.

FREE LECTURE ENTITLED

CHRISTIAN SCIENCE: THE RELIGION OF JOYOUS ATTAINMENT

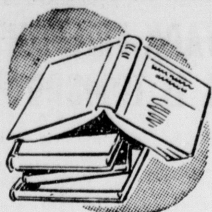

By EARL McCLOUD, C.S.B., San Antonio, Texas
Member of the Board of Lectureship of The Mother Church,
The First Church of Christ, Scientist, in Boston, Massachusetts

In Congregational Church, 3rd and H Sts., Niles

SUNDAY, FEBRUARY 27, AT 3 P.M.

Under the Auspices of

First Church of Christ, Scientist, Niles
YOU AND YOUR FRIENDS ARE CORDIALLY INVITED

At the LIBRARY

By ELAINE HOWE

I have information from an unimpeachable source—the paper says the weatherman says we may start thinking about spring. If that is true the next thing I know everyone will be planting gardens, and working busily around the perennials and shrubs. Is it possible that there is a rank amateur in Niles, or even an old hand who could use a refresher course? If this description fits you, you may be interested in books on gardening to be found in the Library, some especially written about California conditions.

To name a few: "Shade and Ornamental Trees of California" by Pratt, "California Garden Flowers" by Wickson, "California Vegetables" by Wixson, "Practical Horticulture for the Pacific Slope" by Dickson, and "Gardening in the South and West" by Scruggs. Sunset Magazine, so practical and popular here in the west, is represented by "Sunset's Vegetable and Garden Book."

Insect pests are always a problem and Essig's "Injurious and Beneficial Insects of California" offers description and control. A special kind of gardening finds answers in "Greenhouse Gardening for Everyone."

We are glad to be able to announce that the Library now subscribes to a most useful service—Readers Guide to Periodical Literature. It is a tool dear to the li-

NEWARK MAN IN IMPORTANT CANCER FIND

MALNUTRITION FOUND PREVENTATIVE AID

Dr. Louis Ruschin, Newark resident, was a member of a medical board which recently announced that malnutrition may actually aid in preventing 98 per cent of all cases of cancer.

The study was sponsored by the American Medical Association last fall and was conducted on the Navajo and Hopi Indians.

The investigating team consisted of Drs. Ruschin; A. A. Thurlow, Santa Rosa; Samuel Ayres Jr. and Harold Crowe, Los Angeles; and Lewis Moorhead of Oklahoma City. They studied cancer, heart diseases, apoplexy, high blood pressure, diabetes and scarlet fever found in the Indians.

After investigating the diet of thousands of Indians they found there were only 36 cases of cancer reported in 30,000 Indians even though they lacked such essential foods as milk, eggs, meat and fresh vegetables.

In comparing the same number of white persons, approximately 1800 cases of the disease would probably have been found, the report said.

The Indians do not show any large proportion of diabetes for in 25,000 persons checked, only five patients were afflicted with

the ailment. In a like number of white people it could be expected that there would be 75 times as many persons suffering with the disease.

The doctors recommended further study in the field related to the malnutrition theory in combat-

LEGAL NOTICE

CERTIFICATE OF CO-PARTNERS DOING BUSINESS UNDER A FICTITIOUS NAME

NOTICE IS HEREBY GIVEN that the undersigned are co-partners transacting business in the County of Alameda, State of California, having our principal place of business at Irvington, Washington Township, Alameda County, California, under the fictitious firm name and style of "C & L LUMBER CO.," that we are the only persons having any interest in said business, and that the places of our residence are hereinafter set forth following our respective signatures hereto.

IN WITNESS WHEREOF, we have hereunto set our hands this 20th day of January, 1949.

ERNEST M. CUNHA

Residing at RFD Box 236, Niles, Calif.

MELVIN C. LEAL

Residing at Warm Springs, California.

STATE OF CALIFORNIA,

County of Alameda, ss.

ON THIS 20th day of January in the year One Thousand Nine Hundred and forty-nine, before me, E. A. QUARESMA, a Notary Public in and for the County of Alameda, State of California, residing therein, duly commissioned and sworn, personally appeared ERNEST M. CUNHA and MELVIN C. LEAL, known to me to be the persons described in and whose names are subscribed to the within instrument, and they acknowledged to me that they executed the same.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my Official Seal, the day and year in this certificate first above written.

E. A. QUARESMA

Notary Public in and for said County of Alameda, State of California.

J28,F4,11,18,25

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA,

IN AND FOR THE COUNTY OF SAN MATEO

No. 8696

In the Matter of the Guardianship of the Estates of

GLORIA H. BENNETT, EDWIN WRIGHT BENNETT, SHIRLEY D. BENNETT and DAVID R. BENNETT,

Minors.

NOTICE OF TIME AND PLACE OF GUARDIAN'S SALE OF REAL PROPERTY AT PRIVATE SALE

Notice is hereby given that the undersigned, guardian of the estates of GLORIA H. BENNETT, EDWIN WRIGHT BENNETT, SHIRLEY D. BENNETT and DAVID R. BENNETT, Minors, will sell at private sale, to the highest bidder, for cash, in lawful money of the United States, subject to confirmation by the above entitled court, on or after the 14th day of March, 1949, all of the right, title, interest and estate of said minors, described as follows, to wit:

From the estate of SHIRLEY D. BENNETT, also known as Shirley Diane Bennett:

The real property and improvements located at the corner of Rose and Grove Streets in the City of Berkeley, Alameda County, California,

which said property is more specifically described as follows, to wit:

BEGINNING at the point of intersection of the eastern line of Grove Street, formerly West Street, with the Southern line of Rose Street, as said streets are shown on the Map hereinafter referred to; running thence Southerly along said line of Grove Street seventy feet; thence Easterly parallel with said line of Rose Street ninety feet; thence Northerly parallel with said line of Grove Street seventy feet to the Southern line of Rose Street; and thence Westerly along said line of Rose Street ninety feet to the point of beginning.

BEING a portion of Lots Numbered 2 and 3 in Block Numbered 4, as said Lots and Block are delineated and so designated upon that certain Map entitled, "Map of the Graves and Taylor Tract" etc., filed September 26, 1874 in Liber 5 of Maps at page 29 in the office of the County Recorder of the County of Alameda.

Together with improvements on above property, consisting of a Concrete Class C building, two stores.

Bids or offers will be received at the office of HELEN M. BENNETT, guardian of the estates of said minors, at 2000 16th Street, San Francisco, California, in care of E. W. Bennett Manufacturing Co. or at the office of COSGRUFF, CARR, McCLELLAN & INGERSOLL, attorneys for said guardian, at 329 Primrose Road, Burlingame, California, and must be in writing.

Terms and conditions of sale: Ten per centum (10%) of the purchase price must be paid at the time of sale, and the balance on confirmation of the sale by the said Superior Court and delivery of the deed.

Dated: February 19th, 1949.

HELEN M. BENNETT,

Guardian

COSGRUFF, CARR, McCLELLAN & INGERSOLL,

Attorneys for Guardian.

ting cancer and heart diseases.

Ruschin, born in Newark, attended elementary school there and Washington Union High School in Centerville.

Following his pre-medical studies at Stanford University, he attended McGill University in Montreal from which he was graduated in 1938. He served his internship at the Highland Hospital in Oakland and served in several hospitals in Alameda County. He was head of a staff in the Fairmont Hospital in San Leandro prior to entering private practice in Oakland.

Dr. Ruschin is married, has two children and lives in Oakland. He is the son of the late Mr. and Mrs.

LEGAL NOTICE

NOTICE OF HEARING ON PROPOSAL TO AMEND SECTION 22.2 OF THE COUNTY ZONING ORDINANCE (ORDINANCE NO. 420) FOR THE UNINCORPORATED TERRITORY OF THE COUNTY OF ALAMEDA, RELATING TO THE USES PERMITTED IN ANY "U" DISTRICT THEREOF FOR WHICH A PERMIT IS REQUIRED, TO READ AS HEREINAFTER SET FORTH.

NOTICE IS HEREBY GIVEN that the Board of Supervisors of the County of Alameda will hold a public hearing on the proposal to amend Section 22.2 of the County Zoning Ordinance (Ordinance No. 420), relating to the uses permitted in any "U" District for which a permit is required, to read as hereinafter set forth. The territory affected by such proposal is all the unincorporated territory of the County of Alameda not included in any district other than a "U" District under the Zoning Ordinance.

Such public hearing will be held at the hour of 2:00 o'clock p.m. on the 10th day of March, 1949, in the regular meeting room of the Board of Supervisors, Court House, 1225 Fallon Street, Oakland, California. The effect of the adoption of such proposal will be to specify the uses of land and of buildings permitted in "U" District for which a permit will be first required.

Proposals to amend Section 22.2 of the Zoning Ordinance to read as follows:

"22.2 USES PERMITTED: (a) All uses not otherwise prohibited by law; provided, however, that none of the following uses shall be established in any "U" District unless and until in any such case, a use permit, as provided in Section 31 of this Ordinance, shall first have been secured for such uses:

Construction or operation of an airport or flight strip, camp grounds or automobile camps, automobile trailer camp or court, automobile wrecking yard, outdoor theater, race track, smelting of ores, refining of petroleum, manufacture of explosives or fireworks, junk yard, storage or sale of used building materials, garbage, offal or dead animal dumping or reduction, operation or establishment of a quarry, gravel pit or mine, fertilizer manufacture, slaughterhouse or abattoir, cemetery, crematory, mausoleum or any other place for the burial or disposal of the human dead, or any addition thereto."

BY ORDER OF THE BOARD OF SUPERVISORS this 8th day of February, 1949.

G. E. WADE
County Clerk and, ex officio
Clerk of the Board of Supervisors of the County of Alameda, State of California.

Notary Public in and for said County of Alameda, State of California.

(SEAL) F4,11,18,25M4

LEGAL NOTICE

BROWN, J. C. H. EGGERS, also known as J. H. Eggers, JOHN C. SPATZ, MARIA MAGDALENA SPATZ, JOEL S. SCRIBNER, ISADORA JOYCE, formerly Isadora Scribner, also known as Dora Scribner, DORA JOYCE RICHMOND, LEWIS C. SMITH, LUCIEN B. HUFF, HENRY HAHN, HENRY C. SMITH, MARY A. SMITH, EDMUND CHAUNCEY, JOHN R. WARES, A. J. LATTIN, also known as A. J. Sattin, and also all other persons unknown, claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to Plaintiffs' ownership, or any cloud upon Plaintiffs' title thereto, Defendants:

You are hereby directed to appear and answer the complaint filed in the County of Alameda, in an action entitled as above, brought against you in the Superior Court of the State of California, in and for the County of Alameda, within ten days after the service on you of this summons—if served within said County, or within thirty days if served elsewhere.

The object of said action is to obtain a judgment and decree of said Court adjudging and declaring that none of said defendants, nor any of them, has any right, title, estate, lien, or interest in, to, or upon the real property in said complaint and hereinafter described, or any part or portion thereof, adverse to the ownership of Plaintiff WILLA JANE HELLWIG as to Parcels 1 and 2 hereinafter described or the ownership of Plaintiff WILLA JANE HELLWIG as Executrix of the Estate of George P. Hellwig, deceased, as to Parcel 3, hereinafter described, or any cloud upon Plaintiffs' said titles thereto and that the titles of said Plaintiffs in and to said real property, and every part and portion thereof, is good and valid and that said Plaintiffs are entitled to have said titles quieted against said defendants, and each of them, and that said defendants, and each of them, be forever enjoined and debarred from asserting any claim whatever in, to or upon said property, or any part or portion thereof, adverse to said plaintiffs, as aforesaid; the premises affected by this suit are situated in the Township of Washington, County of Alameda, State of California, and are bounded and described as follows, to-wit:

STATE OF CALIFORNIA,

County of Alameda, ss.

ON THIS 20th day of January in the year One Thousand Nine Hundred and forty-nine, before me, E. A. QUARESMA, a Notary Public in and for the County of Alameda, State of California, residing therein, duly commissioned and sworn, personally appeared

HAROLD L. BURNS, known to me to be the persons described in and whose names are subscribed to the within instrument, and they acknowledged to me that they executed the same.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my Official Seal, the day and year in this certificate first above written.

E. A. QUARESMA

Notary Public in and for said County of Alameda, State of California.

MISSION SAN JOSE NEWS

By LOIS BOTTENBERG

Lois Bottenberg

WELCOME TO MISSION

Several new families have joined the ranks in the past few weeks. Mr. and Mrs. Hilton Waters have moved into the old Witherly place, now owned by Mr. and Mrs. H. H. Huddleston, as the foreman, and Mr. Herbert Stuart of Oroville is doing a lot of engineering at the ranch. Mr. and Mrs. T. J. Johnson and family and Mr. and Mrs. Harry Johnson and family are the new operators of the Shell Service at the entrance to town. Mr. and Mrs. John Walsh and family, formerly of Pleasanton, have added three new pupils to our school roster. So now the Mission Grammar School is beginning to show a good increase. The new school bus, piloted by Custodian Herman Medeiros, took off for its first trip on Monday afternoon, so now there are a lot of happy kiddies in town and country for they, too, have a bus "just like the big shots."

ON THE SICK LIST

The Millard children, Andy and Madine, are "all better" and back to school following their seige of measles. The Albert Indians are all on the mend, but the youngest Hill boy is quite ill at his home here. His mother, Mrs. D. B. Hill, had to have in the doctor the other morning. Guess he is going to have his round now.

BIRTHDAY

Reverend Father John A. Leal celebrated his birthday on Sunday (he won't tell us how many) and Reverend McKeon has taken Father Gabisch's place at St. Mary's of the Palms while Reverend Gabisch has been transferred to Napa Parish.

NIGHT OUT

Saturday evening was their night out, so Teddy and Jack Pereira took off, had a lovely dinner at Lucca in Santa Clara and then on to San Francisco to take in the sights.

FROM MODESTO

Mrs. Louise Kahn, accompanied

by Mr. and Mrs. John Machado of Modesto, spent a few days here at the home of Mr. and Mrs. Alfred Andrade and family and at the home of her sister, Mrs. Rose Telles.

CONGRATULATIONS!

Proud owners of a new Chevrolet are Manuel Costa and his mother.

BACK TO WORK

Louis Souza, who has been laid up with a fractured knee for several months because of an accident the day before Christmas, has again gone back to work with the P. G. & E. near Collinga.

CHANGE OF SETTING

Remodeling has begun on the building owned by Cyrus and Lena Solon next door to the Mission Library, for the next post office quarters, which they hope will be ready for occupancy on April 1.

RESTORATION PLANS

Father John A. Leal informed your correspondent that the restoration of Mission San Jose de Guadalupe will begin on or about March 1. He hopes to have quarters made for a club room to be used by those who wish to hold parties and business meetings.

NEW POSITION

Mr. Thor Olsen, who has been a resident of the Mission for a couple of years with his family, is now employed at the Dominican Convent as general gardener and handy man.

TO VALLEJO

Mr. and Mrs. Daniel Cross and family, Edna Mae, Myrna and David Lee, accompanied by Mrs. Mary Callahan, mother of Mrs. Cross, motored to Vallejo on Washington's Birthday to visit at the home of Mr. and Mrs. Joseph Rose and family. Mrs. Rose, another daughter of Mrs. Callahan, goes to the hospital this week-end for a major operation.

POSTMASTERS MEET

The Alameda County Association of Postmasters met last Wednesday night at the Hotel Alameda with Postmaster Ford Samuels of that city doing the honors. Some forty members and guests enjoyed the chicken dinner followed by a short business meeting conducted by President Lois Bottenberg. The meeting was then turned over to the host postmaster and he in turn introduced the acting postmaster of San Francisco, John Fixa,

who gave a very enlightening and informative talk on his recent trip to Washington, D. C., where he met several of the assistant postmaster generals and spent several hours conferring with Postmaster General Jesse M. Donaldson. He introduced several members of his office staff from the San Francisco post office, and other guests were introduced by the postmasters. No meeting was set for the coming month but date and place will be announced later.

BAD LUCK

Friends of Mr. and Mrs. Jimmie Rice and daughter Cathy (the former Marie Brown, daughter of Mr. and Mrs. Albert Brown) were shocked to learn that their new home near Tacoma, Washington, was burned to the ground one morning last week. The family escaped but all belongings except

their car were destroyed. Clogged fire hose, due to the severe cold weather prevented the department from getting it under control before it was too late.

YOUTH CENTER DANCE

Last Saturday evening at the I.D.E.S. Hall, the Mission Youth Center held another of their invitational dances. It was a combination of St. Valentine's and George Washington theme, with red and white paper streamers and in the center of the floor, lo and behold, the cherry tree which George chopped down with his little hatchet sticking in the tree (secret: it was a prune tree). All around the hall were valentine hearts with the names of members and the advisors and their visitors. Mrs. Helen Russell and her friend, Mrs. Ruth Santos, and Advisor Bottenberg were the chaperones. Cake

and soft drinks were served the guests who played games and danced during the evening.

FAREWELL DINNER

The Mission Firemen held a farewell crab feed on Tuesday at Chet Holtz in honor of Joseph P. Garcia, who resigned from the fire department after many years of volunteer service. At the next meeting a new member, Henry Silva, will be invited to join the group.

SAD NEWS

Mr. and Mrs. Aya Tamura, employees of Mrs. O. L. Starr, and son David, were called to Fresno Saturday because of the sudden passing of a close relative.

MOVES

Mrs. Florence Tabor, mother of Dorothy Koelsch, has moved to San Jose to spend the summer. She

has been making her home here for several months.

AT THE HORSE SHOW

David Koelsch and Carl Schneider were lucky ones this week-end for Mrs. Koelsch took them to the Yank and Aussie Rodeo in Oakland, where they enjoyed the program very much.

NEW SCOUTMASTER

IS BEING SOUGHT

Members of the Boy Scout Troop Committee this week redoubled efforts to secure a new troop Scoutmaster to replace Bill Short, who had to resign recently because of increased night school work.

Prominent in the search are William Dobyns, Clifford Rogers and Gus C. Robertson. Applicants should contact any one of the three.

SALT PLANT GETS NEW ALARM SYSTEM

Installation of a new temperature-rise automatic fire alarm system, first to be installed in southern Alameda county, continued this week at the Leslie Salt Co. refinery and processing plants at Newark.

The new system, which consists of thermo-couples attached to ceilings in the plants, is connected with an automatic alarm at the Newark fire house. The thermo-couples relay electric current to the alarm upon any sudden rise of temperature, such as that caused when flames get under way.

Total cost of the installation is approximately \$10,000, according to J. C. Buchen, plant official.

Superintendent of the refinery is David Kirk, while Manuel Amal heads the processing unit.

test SAFEWAY RIB LAMB CHOPS for EATING VALUE!

The guarantee below holds good on ALL meat purchases at Safeway markets.

THEY'RE TRIMMED BEFORE WEIGHING... you don't pay for excess bone or fat—at Safeway the long "tail" of the rib and the end of the chine bone are removed before weighing.

THEY'RE FROM GOVERNMENT GRADED LAMB... only top U. S. Government grades are selected for you by Safeway experts.

THEY'RE AGED FOR TENDERNESS... in specially-designed, temperature-controlled, aging rooms to bring out peak flavor and tenderness.

TAKE HOME some Safeway Rib Lamb Chops—cook and serve them the way you prefer... EAT EVERY BIT OF THEM... Judge them for tenderness, juiciness and flavor... IF YOU DON'T LIKE THEM—for any reason—your own Safeway market man will give all your money back, without return of the meat.

SPORTS

WASHINGTON TRACK HOPEFULS TO MEET

Judson "Jud" Taylor wiped his brow a second—"I dunno—maybe yes; maybe no," he replied. And that's how Washington Huskie track hopes shape up today, as Taylor prepares to round up his charges in preparation for coming S.C.V.A.L. track and field competition.

Jud will view team hopefuls for the first time next week, when a track squad meeting and sign-up is held. Formal practice sessions will start as soon as weather conditions give the go-ahead.

OUTLOOK DIM

The season will open April 1, when the Los Gatos Wildcats invade the township for a dual meet with Washington.

Generally speaking, the outlook in all divisions is not too good, although Taylor expects a wealth of returning talent. He has several individual stars, but no sustained power.

RETURNING VETS

In the A division probable returning veterans will include Johnny Recends, Don Pine, Dave Bishop, Clarence Fernandez, Frank Correa, Dick Wismer, Joe Sankene, Mel Lewis, Jack Gaunt, Fred Duffie, Dan Goularte and Gabe Martinez. Most are weight and vault performers, with little accent on sprints or distance races.

B returners include Al Durazo, Dick Lane, Bob Sausedo, Jack Borge, L. Moga, Jim Sekegahama, Orbie Robertson, Bob Hernandez and Pete Morlos, while only four veterans, Yukio Hiseoka, Tad Sekegahama, Furtado, and Armando Morlos remain from last year's C squad.

Joe Orochi, Tony Balcita, Ray Andrade, T. Sekegahama and Merle Bechtold will be returning D's.

Taylor emphasized several returners will have changed classifications, however.

WASHINGTON CAST AS 'GIANT KILLER'

Washington Huskie and Pupples hoop quintets will be cast in the role of "giant killers" tonight, as they journey to San Jose to do battle there with the resident San Jose Technical Bulldogs.

Coaches Clyde Voorhees and Don Wolfe have high hopes of upsetting Tech tonight, in either one or both the varsity and 130 contests. Festivities will get underway at 7:30 in the Tech gym.

Voorhees will open the game with his per-usual starting lineup, consisting of Joe Sankene, Bill Pereira, Bill Ramsey, Gil Martinez and Frank Vargas.

Wolfe as yet is undecided on his starting combination.

Last week Tech fell before Fremont in the varsity game, putting the two teams in a tie for first honors in the S.C.V.A.L. Meanwhile Washington's loss to Los Gatos left only a slim mathematical possibility to gaining the pennant. A win over Tech, however, would represent a clean sweep over league leaders. Earlier this season Washington dumped Fremont in the opposition gym.

WARM SPRINGS IN SCHOOL HOOP RACE

Pennant-bound Warm Springs Elementary School "A" basketball team met and dumped the Alviso Elementary School quintet in a one-sided game at the Warm Springs Grammar School last Monday afternoon. Final score saw the Warm Springs five with 37 points chalked up to the 9 scores tabbed by Alviso.

High point man for Warm Springs was Richard Vargas, while Captain Frank Galvan was runner-up with 10 mark-ups. Frank Murakami, Alviso high scorer, nabbed five points.

Substitutes from Warm Springs B team were used frequently during the game as they kept a substantial lead throughout the fracas.

LOS GATOS NABS PAIR AS HUSKIES SLUMP. PUPS RISE

The Los Gatos Wildcat came to the township last Friday night, and surprisingly enough walked off with two pellets—courtesy of (1) the Washington Huskies, and (2) the Washington Puppies.

The Huskies, in dropping their decision 25-33, fell apart after an opening quarter salvo and thereafter consistently failed to maintain backboard control, work play patterns or hit the hoop for tallies. Washington jumped to an 11-0 lead in the little over a quarter of play, then lost all steam to lose the tilt. Los Gatos had won but one league encounter in five starts up to Friday night.

Halftime score was 12-7, Washington leading, but shortly after the intermission Los Gatos grabbed the lead and continued to increase their margin.

Bill Pereira, who negotiated on a bad knee all evening, proved Huskie high-point man with seven. Pereira's injury hampered him throughout the game, but he is reported in top flight shape for tonight's titanic with San Jose Tech on opposition courts.

Just as the varsity appeared to "hit rock bottom," the Puppies played perhaps their best game of the season before falling to Los Gatos 22-26. Coach Don Wolfe's crew played the visitors, co-league leaders with Santa Clara, on a stand-off basis for most of the contest but fell behind during one brief bad period in the third quarter. The Pups held a 5-4 edge at the end of the first stanza, then widened the breach to 16-13 at halftime, as local partisans went wild with glee.

Following the intermission, however, Los Gatos hit hard to gain a 26-22 third quarter lead. Throughout the fourth quarter both clubs battled on strictly even terms, to rack the final contest score.

MARLO PACKERS, IRVINGTON CLASH

Weather permitting, two Washington Township entries in the Southern Alameda County Baseball League will mix it up this Sunday on the Irvington School ball diamond.

Manager Alfred Ferreira's Marlo Packers crew will journey there to do battle with Frank Mayer's Irvington Merchants nine. Festivities will get underway at 2 p.m.

Ferreira will open the game with Pepper Martin on the mound, and either Dave Berrios or George Desmone behind the plate. Mayer has not announced his battery as yet.

IRVINGTON WINS 6-3 NOD OVER UAW

The Irvington Merchants ran into "more trouble than expected" last Sunday, before gaining a hard-fought 6-3 victory over the United Auto Workers on the Irvington diamond.

The issue was in doubt until the last half of the eighth inning, when Irvington slammed out three runs on four bingles to break a three to three tie score. The Auto Workers had come from behind in the sixth and seventh stanzas to knot the count.

Manager Frank Mayer started the contest with Tony Dutra handling mound chores. He was relieved by his brother, Hank Dutra, in the seventh frame. Tony racked up six strikeouts and but one walk during his mound tenure, while Hank struck out seven of the eight batters to face him in seventh, eighth and ninth.

In the sticking department, Bud Marshall and Tony Dutra led in heavy hitting, Marshall whacking out a triple while Dutra accounted for a double. Harold Faria and Hank Dutra led in percentages, each nabbing two for three.

Sunday Irvington entertains the Marlo Packers on the Irvington diamond.

ALVARADO TO HAVE KITE FLYING MEET

Kites will fly in the winds of March when students of Alvarado Elementary School compete for 20 prizes in a kite flying contest to be sponsored by the Mothers Club. Competitors will meet on the school grounds March 20 to display and fly kites they have constructed.

HUSKIE BASEBALL PRACTICES START; 'WEEDING OUT' ON

A "weeding out process," to shape up varsity and frosh-soph baseball squads totaling 35 members from among 61 aspirants, is now being conducted at Washington Union High School by Head Baseball Coach Irving Hird, assisted by Don Wolfe.

The high school will operate two baseball squads this year, with a 22-game schedule set for the varsity, while nine tilts have been arranged for the frosh-soph team.

Play will open March 9, when the Huskies will entertain Bellarmine High at Centerville.

Despite the over-abundance of candidates for team berths, Hird is not too optimistic concerning his squad's chances this year. Lone returning varsity letterman thus far is Vernon Machado at short stop, leading S.C.V.A.L. sticker last season with better than .500 batting average. Machado, a junior with two seasons of eligibility left, will anchor the infield, but from there on out Hird has nothing but question marks and worries.

He expects the injured Gene Bramwell, a "natural" at first base and on the mound last year, to be in uniform before the season is well under way. Bramwell, who lost part of his right hand fourth finger recently in a school print shop accident, is recuperating speedily and will aid the Huskie cause as soon as the injured digit loses some of its tenderness.

Hird, however, hardly hopes to attain last year's undefeated record, or the record set by the 1947 squad, which lost but one league contest.

League play will get under way March 22, and will continue on a two per week basis from there on out.

Wolfe, in his first year of coaching at Washington, will supervise the frosh-soph squad.

GENE BRAMWELL ELECTED CAPTAIN

Gene Bramwell, 16, senior student at Washington Union High School, this week was elected season captain of the Washington Huskies basketball team.

Bramwell, son of Mr. and Mrs. James Bramwell of Mission San Jose, was injured in a print shop accident at school recently, and will be unable to play basketball for the rest of the season. Prior to the accident he had been a regular starting forward.

In addition to two years as a varsity hoop player, Bramwell is a two year baseball letterman, and is expected to return to the team this spring when he recovers from the injury.

After graduation, Bramwell hopes to become a professional baseball player.

He was elected team captain by varsity teammates in balloting last Monday. In addition he will be honorary floor captain tonight, when the Huskies play the San Jose Bulldogs.

As a result of the print shop ac-

TRAIL RIDE SET BY HORSEMEN'S CLUB

The second trail ride to be sponsored by the Southern Alameda county Horsemen's Association will be held March 6, according to Club President William Davis.

The ride will start at Mill Creek Road and the Mission San Jose Highway at 10 a.m., and the route will continue up the road to a spot near the summit of Mission Peak.

Jerry Brown will be in charge of the trail route, and Joe Valenzuela will head the chuck wagon crew.

The Horsemen's Association was formed early last summer.

NILES SURPRISES ASHLAND, 5 TO 4

The Niles Merchants, loser in one previous outing in Southern Alameda County Baseball League second half play, eked out a 5 to 4 victory over the Ashland Merchants last Sunday at Hayward, in one of the closest and most evenly fought contests played in league annals.

Ashland, first half play title winners, belted out six hits during the fray, to Niles' five. Niles Hurler Joe Peters and Ashland's Tony Lopez combined to throttle strikers for the day, as no extra base knocks were recorded.

FIRST BLOOD

Niles drew blood in the first inning, tallying two markers. Ashland came back with one tally in the second stanza, then added three more in the seventh to take game lead until Niles put the tilt on ice in the eighth with a three-run barrage.

In going the route, Peters whiffed eight batsmen, while walking three. Batting percentage honors went to Joe Dutra, who entered the game as third baseman in the eighth frame, and participated in the final Niles scoring spurt. Dutra collected a neat one run, one hit average for his single appearance at the plate.

MEET CARPENTERS

This Sunday, provided weather conditions do not force postponement of the tilt, Manager Tom Pugmire will send his crew against the Hayward Carpenters at 2 p.m. on the Centerville diamond.

Box scores follow:

Dutra relieved Nunes in 8th and Bell relieved O'Donnell in 8th.

cident, Bramwell lost one joint of his right hand fourth finger. His hand had become caught in a school printing press, and amputation of the joint was necessary.

32 STUDENTS WIN CERTIFICATES IN BASKETBALL CLINIC

Certificates for completion of instruction given in the first annual Washington Township Basketball Clinic are in the mails today, destined for 32 township seventh and eighth grade elementary school students.

The clinic, staged by Washington Union High School basketball coaches Clyde Voorhees and Don Wolfe, ended last Saturday. Three meetings were held during the course.

WINNERS LISTED

Completion awards were earned by all students attending all three sessions.

Niles Elementary School students receiving awards are Philip Pineda, David Martin, Jimmy Cartwright, Richard Martinez, James Andrade, Joe Cardoza and Tommy Meeker.

Three Centerville students, Ed King, Dick Arlington and Ernie Davi, will receive certificates.

Irvington winners are Paul Thomsen, Erino Padilla, Gene Chitwood and Junior Coronado.

THESE GET 'EM TOO

Joseph Abreu, Frank Murakami, William Emery, James Bettencourt, Robert Hailey and Kenneth Mello are Alviso award winners.

Newark students are LeRoy Brown, Scottie Haynes, George Cole and Allan Olk.

From Alvarado, George Cicalros, Julio Moreno, Andrew Pimentel, Tony Mato, Antwine Rigmaiden, Arnold Gardetto, Johnny Gualco and Sonny Hernandez will receive awards.

HOOP FUNDAMENTALS

The clinic, designed to give seventh and eighth grade boys from all elementary schools in the township an opportunity to learn the basic fundamentals of basketball, is the first of a series which may be extended to all sports, according to Voorhees.

Topics discussed, demonstrated, and practiced were offensive and defensive stances, pivoting and turning, and methods in correct footwork. Boys were also given instruction in passing, dribbling and shooting, and were shown methods of zone, and man to man defense.

Short play periods were staged to allow all participants to put instruction into practice.

IRVINGTON GIRLS IN COUNCIL PROGRAM

Eighth grade girls of the Irvington Elementary School staged an impressive candle lighting ceremony for the Phoebe A. Hearst Council meeting in observance of Founders' Day at the Pleasanton school last Thursday. Mrs. Irma Bond directed.

Girls who participated included Frances Ayala, Shirley Amaral, Jane Barao, Felicidad Escalona, Annamae Grimmer, Jacqueline Peters, Joe, p, 3, 0, 0, Dutra, Joe, 3b, 1, 1, 1, Bell relieved O'Donnell in 8th.

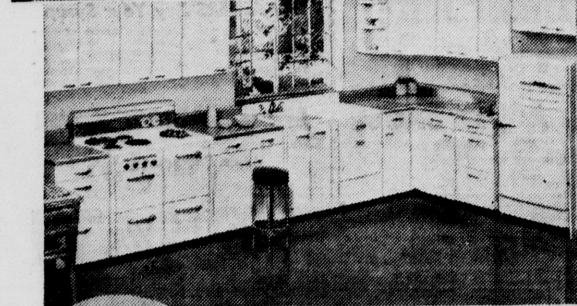

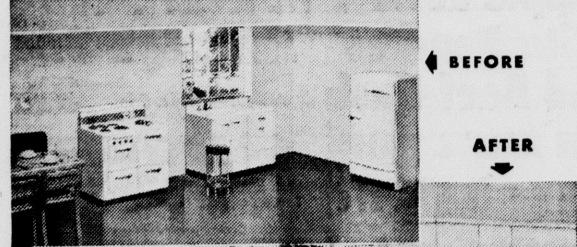

Captain Cook discovered the Hawaiian Islands in 1778 and met his death there on his second visit in 1779.

Everybody's Pointing to Hotpoint

Dorothy Brinkman Arrives from Detroit

The great moment that all of her friends and relatives have waited for has arrived. Mrs. John Brinkman and daughter Linda Lee arrived Tuesday from Detroit for a month's visit with her parents, Mr. and Mrs. Joe Amaral Sr., of Irvington. They were to have arrived last week, but the train was held up because of snow.

It's quite an occasion for all the Amaral family, as this will be their first glimpse of Linda Lee, who is almost a year old, and the first visit from Dorothy since her marriage almost two years ago. Mrs. Brinkman is the former Dorothy Amaral of Irvington. Her husband John Brinkman, has entered school in Chicago for a month's training with the Swift Company.

Birthday Party At Dinah's

In celebration of Howard Overacker's birthday, a group of his friends and relatives motored across the bay last Friday night to dine at Dinah's Shack. Those in the party were Mr. Overacker and his wife, Theo; his mother, Mrs. Michael Justus Overacker Sr., Mr. and Mrs. Thomas Elliott, Mr. and Mrs. George Coefield, and Mr. and Mrs. Earl Mackintosh.

Newark Woman Resumes Teaching

Mrs. Dorothy Scott of Newark is finding plenty of things to occupy her time these days, having resumed her teaching at the Russell City school recently. She also supervised the lunch-room at the school, in addition to teaching home making.

At the Maccabees

The East Bay Past Commanders Club of The Maccabees will hold its annual election and banquet on Tuesday in San Leandro this week. Those from here who attend are Mmes. Emily Fields, Nora Rogers, Cora Hill, Catherine Perry, Maydella Crane and Mae Bowers.

Bridge Hostess

Mrs. Kenneth Berg of Newark was hostess to the members of her bridge club this week. Those who attended included Mmes. Wilda Mette, Mary Melhase, Mildred Foster, Mildred Brown, Lois Gravestock, Dorothy Scott, and Marjorie Redeker.

Birthday Event

Mrs. Karl Nordvik was the guest of honor at a birthday dinner at the Hawaiian Gardens in San Jose last Saturday. A birthday cake presented to her at the table and the orchestra playing "Happy Birthday" all served to make the occasion a particularly merry one. Those who went with her were her husband, her father, Mr. Harry Weber; her aunt and uncle, Mr. and Mrs. W. R. Steinmetz and Mrs. Dora Fuller.

Business and Pleasure

Mr. and Mrs. John Brahmst of Niles returned Wednesday after a five-day trip to Los Angeles. The trip combined pleasure and business.

Their son, Bob, decided against the trip south in favor of a trip up to the snow with Mr. and Mrs. "Chuck" Stoddard of Niles. The trio had a lot of fun skiing up beyond Long Barn. Mr. Stoddard is a former president of the California Ski Association.

Rain Daunts Not The Merrymakers

Clamming in the rain was the novel entertainment afforded their southland guests by Mr. and Mrs. Joseph Wagner and family of Warm Springs, last Tuesday. The Wagners took Mr. and Mrs. Ed Morrow, of Los Angeles, to Watsonville, for the sport and were forced to dig for the fish while raindrops fell.

Mrs. Wagner is the sister of Mr. Morrow.

Say you saw it in The Register.

Niles Couple Have Gay And Disastrous Evening

What started out to be a gala evening last Wednesday for Dr. and Mrs. E. C. Grau ended up in a most disastrous and unexpected manner.

The Graus motored over to San Francisco to attend a preview of oils and sculpture at the San Francisco Museum of Art, at which, incidentally, another one of our own local artists, Willard Rosenquist, was exhibiting.

The evening proved to be highly successful, with artists and socialites of the bay area turning out by the dozens. Everybody was having a delightful time, including the Graus who were especially pleased over the fact that one of Mrs. Grau's water colors was chosen to be placed in a portfolio of works of our most prominent bay area artists to be presented to the retiring president of the Museum, William Crocker.

The evening, as even the most successful ones eventually do, finally came to an end. The Graus, accompanied by four friends, all of Hayward, went out to their car.

Their car, a late Hudson model, was there all right, but in what a condition! It was completely demolished, having been smacked into by a car that had careened down from its parking place on Turk Street.

To add to their dismay, rain was coming down in torrents, and furthermore, there was a taxi strike. Eventually, via street cars, buses, and a borrowed car, the Graus arrived home in the wee sma' hours of the morning, with plenty to say—and none of it good—about motorists who don't follow the rules when they park their cars on hilly streets.

In Carmel

Several localities motored to Carmel last week-end to visit the Joe Blacow, former Irvingtonites. Those who enjoyed the excursion included Mr. and Mrs. Ed Rose, Mr. and Mrs. Wayne Day, Mr. and Mrs. Henry Enos, Mr. and Mrs. LeRoy Brown and son, LeRoy Jr., Mrs. Marian Zwissig and Miss Audrey Turnbow.

Sugar and Spice

It's a baby girl for the Ted Logans. The little girl was born last Sunday, February 21, at the Alameda Hospital. The Logans have two other children, Tommy, 7, and Allen, 3.

Sell it with a Register Want Ad!

THE YOUNGER SET

MICHAEL ANTHONY ALLAN

Don't judge young Michael Anthony Allan's disposition by the picture above. Actually he is the best-natured baby in the world, according to his parents, Mr. and Mrs. Jack Allan of Irvington.

It was simply that young Michael had never before in the history of his young life had any experience with a camera. Can you blame him for being slightly distraught over the proceedings?

Michael was born on August 21, 1948. He is a healthy, brown-eyed

youngster with lusty lungs and a fine appetite. As we mentioned before, he is a good-natured baby, and usually has a smile for everyone. He spends his waking hours playing happily with his toys, the favorite of which is a "Woody-Woodpecker" balloon the positively fascinates him.

Michael's daddy is employed at the steel mill. His grandparents are Mr. and Mrs. Alfred Nunes of Centerville, and Mr. and Mrs. Ralph Allan of Irvington.

At Nurses' Aides Meet

Mrs. Frank Fields of Niles recently attended the Red Cross Nurses' Aides meeting in Oakland at which Mrs. Selover, director of disaster, was the guest speaker. It was the regular monthly meeting.

Northern Visitors

Miss Ruth Morrow and her fiancé, Mr. Robert Henkle, both of Crescent City, were visitors at the home of Mr. and Mrs. Joseph Wagner of Warm Springs last week-end.

LADIES GUILD TO HAVE ALL-DAY SEWING BEE

The Ladies Guild of the Niles Congregational Church will hold an all-day sewing session next Wednesday, March 2, in preparation for the big spring bazaar which they are sponsoring.

The ladies will meet at 10 a.m. and will sew through the afternoon with a recess for luncheon. Each member is asked to bring her own sandwiches, and dessert and coffee will be served by the co-hostesses for the day, Mrs. W. F. Lamoreux and Mrs. Tom Robbins.

Mrs. Dora Scudder has been named chairman of the bazaar.

CENTENNIAL MOVIE SHOWN AT SCHOOL

A technicolor movie showing historical and outstandingly beautiful landmarks and scenic locations in California was presented to the student body last Monday afternoon in the Alvarado Elementary School auditorium.

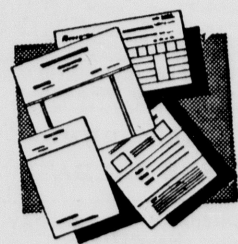

The picture, filmed by the Standard Oil Company of California, commemorates the Centennial Celebration taking place in California at this time.

NOTICE!

The date for the rummage sale to be given by the Newark P.T.A. has been changed from March 3-4 to March 10-11, according to an announcement this week from Mrs. Kay Kettman, chairman of the affair.

Say you saw it in The Register.

PRINTING of Distinction

WHETHER it be a small quantity of business cards or a complete line of business stationery... The Township Register commercial printing service will do the job well and economically.

ADVENTURES ABROAD HIGHLIGHT TALK AT ARTS APPRECIATION MEETING

Mrs. Clifford Nelson of San Carlos was responsible for one of the most interesting programs ever given at an Arts Appreciation Section of the County Club meeting. This is the consensus of those who were fortunate enough to hear Mrs. Nelson's talk at the regular meeting, held at the home of Mrs. Ann Mayock, Wednesday evening.

Mrs. Nelson, the young and charming niece of one of the club's members, Mrs. Clifford Johnson of Decoto, told about her experiences abroad as the wife of a member of the State Department, and of their several months of residence in Athens, where he served on the American mission to Greece.

FAMED DANCE MIME TO APPEAR AT NEXT MEETING OF COUNTRY CLUB, MARCH 1

An unusually interesting program has been slated for the next meeting of the Country Club, according to an announcement this week from the president, Mrs. Florence Myrick.

Madelynne Green of San Francisco, famed dance mime known

for her interesting caricatures in dance, will give an hour's program following the regular business meeting.

A friend of Mrs. Edward Mara, program chairman for the day, Miss Green is widely known in the bay area not only for her comic dances but for her participation in folk-dancing groups. She has, as a matter-of-fact, invented several folk dances herself that have become popular wherever folk dancing is performed.

A teacher of ballet dancing in San Francisco, she also heads a group of dancers who have given programs in such locales as Carmel, Walnut Creek, etc.

It has been announced that club members will be permitted to invite guests for this meeting. The business meeting starts at 2:00; and the dance program will start about 2:45.

Double Trouble

Robert Del Fiorentino, Irvington boy, has had more than his share of trouble. En route to Germany as a private in Uncle Sam's army, he has been laid up in New Jersey with mumps AND measles!

A Little Late

William Dutra, Newark surveyor, is just now catching up with his childhood diseases. He is home this week with a very bad case of chicken-pox, and is receiving the sympathy of his many friends.

To the Hospital

Mrs. Henry Marin of Niles will go to O'Connor Hospital next Monday for a minor operation, to return home in about a week.

Birthday Luncheon

Complimenting Miss Rosemary Gunn who is observing her birthday Saturday, Miss Emily Scott will be hostess at a small luncheon party at her home in Newark.

At San Rafael

Mr. and Mrs. Harvey Braun and Mr. and Mrs. John Galvin motored to San Rafael last Sunday to spend the day at the home of Mrs. Braun's son and daughter-in-law, Mr. and Mrs. Edward Wargin.

DANCE PLANS TO BE MADE

Plans for a dance to be sponsored by Lady of Fatima Council, Y.M.I., will be laid at the group's next regular meeting Wednesday night.

The dance, which will be staged March 19 at the Newark Pavilion, is under the direction of Cliff Rogers, chairman, and Manuel Guardanapo, co-chairman.

TOWNSHIP SCOUTS IN SNOW TRIP

Tobogganing, skiing, and snow-balling provided plenty of fun for about 60 Boy Scouts of Washington Township who motored up to Long Barn last Sunday for the winter sports.

Scouts from Newark, Centerville, Niles and Decoto participated. Those who furnished transportation for the boys included Arthur Belshaw, Jack Holland, Ralph Boliba, Nick Lewis, Pat Luna, W. F. Lamoreux, Harvey Granger, Tom Robbins and Mr. Davis.

Also accompanying the group were Don MacDougal and Fred Duffie.
After a hearty get-together breakfast at Sonora, the group went on up to Long Barn for a whole day of fun, returning Sunday evening with glowing accounts of their trip.

W. T. GRAY LADIES HAVE ADDED TASKS AT VETS HOSPITAL

The Gray Ladies of Washington Township have been given another task at the Livermore Veterans Hospital.

In addition to their regular Gray Lady assignment every Tuesday, they have the responsibility of providing someone to play records two days of each week.

This is a new project started during the Christmas holidays and found to be so beneficial to the men when being given pneumo-therapy that the doctors have urged it be continued.

Because of the early hours, the branches of the Red Cross nearest to Livermore have been given this duty. Mrs. Anthony Fields, an active Gray Lady with service at Shoemaker, Oak Knoll, and the Livermore Hospital, has been serving every Wednesday since the first of the year.

Others who have volunteered to assist the Gray Lady Corps are: Mrs. G. Hoskins and Mrs. Dora May Scudder.

The Washington Township Gray Ladies Corps, under the direction of Mr. LeRoy Brown, chairman of the branch, distributed 40 birthday cakes to the men at Livermore Hospital having birthdays in February.

Mrs. Gladys Calhoun represented Washington Township Gray Ladies and saw that each man was given a gift and an individual birthday cake.

On February 24, the following Gray Ladies attended a luncheon at the headquarters in Oakland: Mrs. Gladys Calhoun, Mrs. Nellie Talley, Mrs. Anthony Fields, Mrs. Constance Holland, Mrs. Clarence Crane, chairman, Mrs. Adelaide Kintz, field director of the American Red Cross serving the Livermore Veterans Hospital, addressed the group outlining their work for the coming year.

PUPILS TO ATTEND DENTAL CLINIC

Eighth, seventh and sixth grade pupils and those enrolled in the special classes at Alvarado Elementary School will be taken next Monday to the University of California Dental School at San Francisco for teeth examinations, according to Principal Leslie H. Maffey.

Students will be transported to the bay city in the school bus, Maffey said.

PAUL RIVERS AUXILIARY PLANS JOINT INSTALLATION

Meeting on the night of February 9, the Ladies Auxiliary of the Paul Edward Rivers Post, V. F. W., discussed plans for the joint installation of new officers, the date for which will be set at the next meeting.

At this meeting Commander William Silva introduced a new comrade, Bill Silva, of the Shell Station in Alvarado.

CARD OF THANKS

In appreciation for the generous support to the March of Dimes by our local townspeople who contributed dimes in Larry's behalf, I wish to extend my heartfelt thanks to everyone who helped make this drive a success.

ALVARADO C. OF C. HEARS SUPERVISOR

Last minute changes in his plans enabled Supervisor Chester Stanley to attend the Alvarado Chamber of Commerce meeting held last Thursday night. At an earlier date, Stanley had notified chamber officials he would be unable to appear at the meeting.

Stanley discussed the County Planning Commission versus the Urban Planning Commission and pointed out the value of a centralized County Planning body.

Fred Firens, executive in the Oakland Chamber of Commerce and chairman of their Land and Water Committee, was also at the meeting. He spoke on the new Alameda County Flood Control and Water Conservation project.

Following the talks, an open discussion was held, and the need for more street lights around town was cited by one of the members.

Supervisor Stanley promised immediate action and said two or three lights would be installed on B Street with the possibility of one being erected on Granger Street. Construction is to start soon.

TOWNSHIP SKATERS TO ENTER TOURNAMENT

Roller Skating Club members and fans from the township will attend a skating tournament to be held in Watsonville this Sunday. The event will be held to select champion skaters in the central coast area.

Among those entering the competition from the township are: Lucille Wagner, Warm Springs, who will participate in the girls' racing event, and Gene Brennan, who will compete for the women's figure skating title.

STOVE PLANT NOW BACK TO NORMAL

Nearly 400 workers are now back on the job at the James Graham Manufacturing plant in Newark, as production nears normal, personnel officials revealed this week.

One shift of workers is presently employed at the plant, although two shifts are contemplated for the immediate future, the official added.

A total of 12 men were called back to work Monday and 15 more Wednesday.

FLOOD CONTROL

(Continued from Page 2)
Donald Dunning, deputy district attorney who prepared the bill, when he stated that the flood control act would not eliminate or diminish any of the power or authority now held by the water district.

Other township residents heard from included Curtner of Warm Springs, and Ed Bimillier of Newark.

The bill provides for the creation of a flood control and water conservation district including the entire county. While administrative costs and preliminary engineering studies and surveys would be paid by taxpayers at large, individual projects would be financed by taxpayers in zones created by the Board of Supervisors in accordance with benefits received from the work.

Future meetings will be set by the supervisors.

'SENIOR CITIZENS' SIGNED BY SCOUTS

Twenty-one Centerville Boy Scouts under leadership of Scoutmaster Orrion Dunbar last Wednesday and Thursday nights enrolled 218 Centerville adults as "Senior Citizens," as part of a national Boy Scout campaign to impress good citizenship habits on American adults.

The Scouts passed out a copy of the Bill of Rights to each person called on, and after asking the adults if they would (1) vote to make a better America, (2) write their representatives occasionally, and (3) re-read the Bill of Rights, made them Senior Citizens.

The Scouts are working as a part of the "Crusade to Strengthen the Arm of Liberty," sponsored by the B.S.A. during Americanism Week.

Among those who furnished transportation for the boys were Dunbar, and Troop Committeemen Arthur Belshaw, George Silveira and James George.

Dads who helped were Jack Kleine, Lloyd Hayes and Anthony Bettencourt.

In another activity, 22 scouts were among a party of 50 persons who took in a snow trip last Sunday at Long Barn. Tobogganing and skiing were the order of the day.

In addition, a trip to San Francisco to see an ice hockey game, is being planned by the group.

Coal is a rock composed of a complex combination of hydrocarbons derived from plant remains that have accumulated and become buried under anaerobic conditions.

The total amount of gold taken from the earth since the dawn of history is probably little more than 1.6 billion ounces.

KLATAWA NEWS

Great Pocahontas Marie Fryer made her official visit to Klatawa Council No. 251 of Niles on Wednesday evening, Feb. 16. A dinner was held in her honor at the International Kitchen with a party of 41 attending. Many songs were sung and enjoyed during the course of the dinner.

After the dinner everyone trailed to the Boliba Hall where the meeting was held with Pocahontas Olive DeSalles presiding, assisted by Wenonah Harriet Kaiser, with one hundred and eight in attendance. Sixteen great Chiefs, deputies and statecommittee members were seated. Great Pocahontas Hazel K. Shireman, the Mother of Klatawa Council was introduced by Ada James and given a seat of honor. Great Pocahontas Marie Fryer of Santa Barbara was escorted in by eight girls carrying large paper heart corsages and was introduced by Deputy Great Pocahontas Mable Hopkins of Niles, who presented her with a bouquet of American Beauty rose buds and a doll with a tuft of wampum taped around the bottom of the skirt. Edna Gamba and Hannah Owens sang "Let Me Call You Sweetheart" in honor of the Great Pocahontas. They were accompanied by Great Musician Arlene Johnson.

A class of four Palefaces, Jo Gasho, Elizabeth Plumber, Ann Gee, and Margaret Hadley were adopted into Klatawa Council with Pomo Council No. 209 of Hayward exemplifying the degree work.
